Hi Rhodri,

Please see attached the amended elevation t now show the flue circled below:

I've also noted your comment on noise. The attached noise report was processed for Condition 4 of P2025-0606 for the exact same area. This was done when the original equipment was operational which was considerably louder. Therefore, could you review and confirm if this would be suitable for re-use for this application as the proposed should lessen the noise output recorded previously.

Kind Regards

Nick
