This architectural floor plan depicts a long, narrow building with a complex internal layout. The plan includes several rooms, corridors, and a parking lot. Key features include:

- Rooms and Spaces:** The building contains multiple rooms of varying sizes, some labeled "Loading". There are also areas designated for "New Windows" and "New Windows".
- Corridors and Entrances:** A central corridor runs through the building, providing access to various rooms. Entrances are marked with "Door" labels.
- Parking Lot:** A parking lot is located on the left side of the building, with several parking spaces indicated.
- Dimensions and Scale:** The plan includes numerous dimension lines and numerical values (e.g., 12'0", 10'0", 15'0") indicating the size of the building and its components.
- Orientation and Context:** The plan is oriented with North (N) at the top. A scale bar is provided at the bottom left, showing distances in feet (0, 10, 20, 30).

Output Level = 10,000

This architectural drawing shows the elevation of the proposed waste management facilities. The 'New Waste Compound' features a series of vertical corrugated metal panels. The 'New Storage Building' is a larger structure with a gabled roof and a series of vertical panels. The 'New Cycle Racks' are a smaller structure with a corrugated metal roof. The drawing includes labels for each structure and a scale bar indicating 0 to 10 meters.

This architectural section drawing illustrates the internal structure and layout of a building. The drawing includes the following elements:

- Structural Elements:** The roof is supported by a series of vertical columns. The floor is shown as a solid base.
- Internal Spaces:** The building is divided into several rooms, including a large central hall, a smaller room on the left, and a room on the right. A central corridor or hallway is also visible.
- Proposed Modifications:**
 - New Windows:** Indicated by arrows pointing to four small rectangular openings on the left wall.
 - New Louvers:** Indicated by arrows pointing to two sets of horizontal louvers on the right wall.
- Other Features:** The drawing includes various doors, windows, and structural details like beams and columns. Labels such as "New Windows", "New Louvers", "Door", "Window", "Beam", "Column", "Roof", "Floor", "Wall", and "Ceiling" are used to identify specific components.

This architectural elevation drawing shows the front facade of the building. It features a long, symmetrical structure with a central entrance and several bays on either side. The facade is characterized by vertical lines, possibly representing columns or panels. The drawing is a black and white line art, showing the building's profile against a plain background.
