Informatives:

1 The developer is made aware that in relation to condition 4 that the URS report states that the Area 1 site has been remediated and validated as the requirements of the remediation strategy, however some aspects of the remediation and validation remain outstanding until the final earthworks and the construction phase of the works. These include:

- Final validation sampling of site derived soil in the remaining garden plots to be developed after final earthworks (i.e. all plots except those shown in Figure 19).
- Testing of any imported soils/materials used in the development works.
- Vapour resistant membrane and passive venting layer to be incorporated by the developer into each house or other building likely to be routinely occupied by people. Furthermore, restrictive covenants are required by BP to be incorporated into the house sale agreements such that the integrity of vapour membranes are to be maintained and that these are incorporated into extensions and new buildings likely to be occupied by people. In the Lower Car Park (Area A), covenants are required such that the integrity of the capping layer is maintained. I would therefore require a remediation scheme for the works as outlined in the URS, BP Area 1 Remediation Validation Report. Draft, Issue No 1, 44382729/BRRP004 (18th January 2010) as well a validation report for the works.

The proposal represents an appropriate form of development that would have no unacceptable impact on the amenity of adjoining property, highway and pedestrian safety, or the character of the area as a whole. Accordingly, the proposed development is in accordance with Policies SC1, BE1, H1 and TR2 of the Neath Port Talbot Local Development Plan.

Signed: 

Nicola Pearce – Head of Planning & Public Protection

Date: 5 November 2019

IMPORTANT:

(1) Please note that for all decisions issued after 16th March 2016 for outline or full planning permission, a revised decision notice will be issued whenever a subsequent consent is given, for example providing details of any Reserved Matters approvals (outline applications only) and/or approval of conditions (including on Reserved Matters). This will ensure that the current status of the conditions applied to a consent is clear. Accordingly you are advised to visit www.npt.gov.uk/planning to view the application documentation to see if this is the current version, or whether it has been superseded by a more up-to-date revision of this Decision Notice. For Reserved Matters approvals the revised Decision Notice will only be shown under the Outline approval.

(2) Please note that this consent is specific to the plans and particulars approved as part of the application. Any departure from the approved plans will constitute unauthorised development and may be liable to enforcement action. You (or any subsequent developer) should advise the Council of any actual or proposed variations from the approved plans immediately so that you can be advised how to best resolve the matter.

(3) In addition, any conditions that the Council has imposed on this consent will be listed above and should be read carefully. It is your (or any subsequent developers) responsibility to ensure that the terms of all conditions are met in full at the appropriate time (as outlined in the specific condition). Please note that any works carried out without compliance with the conditions attached to this approval will be entirely at the risk of the persons involved and may result in formal action being taken by the Local Planning Authority.

(4) The developer should have regard to Sections 4, 7, 8 and 8A of the Chronically Sick and Disabled Persons Act 1970 and to the British Standards Institution's Code of Practice for "Design of buildings and their approaches to meet the needs of disabled people" (BS 8300:2009+A1:2010).

(5) From 1st October 2012 it has been an offence to install a public sewer or lateral drain without having an adoption agreement in place. From the 1st October 2012 the vast majority of all existing private sewers and lateral drains which link with the public sewer network were transferred to Welsh Water. For further details on how this will affect your development please contact: Welsh Water Developer Services, PO Box 3146, Cardiff, CF30 0EH. Telephone No. 0800 9172652 or email: developer.services@dwrcymru.com.
