

**EMAIL FROM COAL AUTHORITY 6<sup>th</sup> FEBRUARY 2020**

Morning Gareth,

Very well thanks, hope you are also. Sorry for the delay in coming back to you, been working away down in Wales the last couple of days.

As with plot 29, plot 28 attached is situated to the north of the Coal Authority's development high risk area and consequently should not require a CMRA unless specifically requested by the local authority.

Kind Regards

Phil

 The Coal Authority
