13/3/2020.

Dear Karen Collins,

Further to our original application for work to 1x sycamore (T17), we would now like to seek your permission to:-

- ① Reduce the crown overall by approx. 2 metres.
- ② Crown thin to remove deadwood, crossing and rubbing branches and weaker, lesser branches.
- ③ Remove all ivy from Crown of tree.

These works will be to greatly improve the overall appearance of the tree and to produce a nice, lighter evenly spread crown, all in the interests of good house keeping.

yours Faithfully,

John Blake
