Statement of Significance

The file has been uploaded separately.

1) Section 1. Brief history and description of the church building(s), contents, churchyard and setting

See attached Statement of Significance

2) Section 2: The significance of the church (including its contents and churchyard) in terms of:

- i) Its special architectural and historical interest**
- ii) Any significant features of artistic or archaeological interest**

See attached

3) Assessment of the impact of the proposals on the significance defined in Section 2

It is considered that the placing of two plaques from the now redundant St Peter's church in the tower would not have an impact on the listed building. The plaques are relatively small: the War Memorial measuring 76cm high x 46cm and the RPH memorial is 45.5cm high x 61cm long. They would not therefore be prominent features in the tower and would fit in with the limited items already displayed in the tower
