Combined sewer overflow	Treatment works	Storm Overflow
Special purpose chamber	Pumping station	Rising main
		Gravity sewer
		Private sewer
		Private sewer subject to Sect. 104 adoption agreement
		Private Sewer Transfer
		Lateral Drain
		Inspection Chamber

Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dŵr Cymru Cyfngedig (the Company) gives this information as to the position of its underground apparatus by way of general guidance only and on the understanding that it is based on the best information available and is not warranted as to its correctness in the event of excavations or other works made in the vicinity of the Company's apparatus. The error of location appears below carrying out any excavations made entirely on your. The information which is supplied by the Company is given in accordance with statutory requirements of sections 103 and 109 of the Water Industry Act 1991 which is based upon the best information available and, in particular, but without prejudice to the generality of the foregoing, it should be noted that the records that are available to the Company may not indicate the existence of water mains, service pipes, sewer, lateral drains or other pipes and any excavation should be made in September 1998, or if that date is not practicable then prior to the start of the excavation. It must be understood that the Company's liability for the furnishing of this information is entirely without prejudice to the provisions of the New Roads and Street Works Act 1991 and the Company's liability is limited to the best of its knowledge.
