Good morning Ian and a Happy New Year,

Thank you for your report regarding the demolition of the buildings adjacent to St Martins Gate. From our prospective the whole operation seemed to run very smoothly and we haven't had any complaints. Thank you for your hard work and preparation which I think really paid dividends. When you have any future projects in Worcestershire affecting the highway we are only too pleased to give guidance regarding the traffic management and local conditions.

Kind Regards

Afternoon Graham

Apologies for the delay in this we have been exceedingly busy, we would appreciate your feed back and again many thanks for your teams cooperation and efforts to bring this demolition to a successful conclusion with no incidents or complaints.

We as HCD look forward to working with you again.

Regards
