

The image is a technical architectural drawing of a building's rear elevation, presented in a landscape orientation. It is divided into two main sections: 'EXISTING REAR ELEVATION' on the left and 'PROPOSED ELEVATIONS' on the right. Both sections show a building with a gabled roof, multiple windows, and a textured base. The 'PROPOSED ELEVATIONS' section includes a diagonal line labeled 'NO 27 GARAGE' indicating a proposed extension. A scale of 'SCALE 1:100' is centered between the two sections. The drawing is enclosed in a double-line border. At the bottom, a title block reads 'GARAGE CONVERSION 28 WESTLANDS'. The entire drawing is surrounded by a thick, hatched border. The image is watermarked with 'ArchicAD Student version, not for resale. Courtesy of Graphisoft.' and the 'GRAPHISOFT' logo is in the top right corner.
