Informatives:

1 Please note that SAB approval will be required prior to any work commencing. The required SAB permission is separate from any planning permission that might be granted and any works commenced without SAB approval will be deemed a breach of approval required under Paragraph 7 (1) Schedule 3 of the Flood and Water Management Act 2010 whereby action will be taken by the Authority under The Sustainable Drainage (Enforcement) (Wales) Order 2018, which could mean removing any work that has commenced. As such under this legislation you are not permitted to start work on site until SAB approval has been granted for your proposed development. You can search the Authority's web site for further information using the link <https://www.npt.gov.uk/17534> , or contact the Highway Development Control Section using hdc@npt.gov.uk or 01639 686850.

2 Trees, scrub and grasslands are likely to contain nesting birds between 1st March and 31st July inclusive. Such habitats are present on the application site and area to be assumed to contain nesting birds between the above dates, unless a recent survey has

Superseded

been undertaken by a competent ecologist to assess the nesting bird activity on site during this period and has shown it is absolutely certain that nesting birds are not present.

3 For the construction of the footway/vehicular crossing you should contact the Senior Highways Inspector Mr Aled Jones Port Talbot County Borough Council at The Quays, Brunel Way, Baglan Energy Park, Neath, SA112GG (Tel: 01639 686407 or 686344. If you propose to do the work yourself you should contact the above prior to commencing any works within the highway in order to arrange the necessary indemnity and specification for the works.

4 The proposed development site is crossed by public sewers with the approximate position being marked on the attached Statutory Public Sewer Record. The positions shall be accurately located, marked out on site before works commence and no operational development shall be carried out within a specified easement zone either side of the centreline of the public sewers. The applicant is advised to contact Welsh Water to discuss. The applicant may need to apply to Dwr Cymru / Welsh Water for any connection to the public sewer under S106 of the Water Industry Act 1991. If the connection to the public sewer network is either via a lateral drain (i.e. a drain which extends beyond the connecting property boundary) or via a new sewer (i.e. serves more than one property), it is now a mandatory requirement to first enter into a Section 104 Adoption Agreement (Water Industry Act 1991). The design of the sewers and lateral drains must also conform to the Welsh Ministers Standards for Gravity Foul Sewers and Lateral Drains, and conform with the publication Sewers for Adoption- 7th Edition. Further information can be obtained via the Developer Services pages of www.dwrcymru.com The applicant is also advised that some public sewers and lateral drains may not be recorded on our maps of public sewers because they were originally privately owned and were transferred into public ownership by nature of the Water Industry (Schemes for Adoption of Private Sewers) Regulations 2011. The presence of such assets may affect the proposal. In order to assist us in dealing with the proposal the applicant may contact Dwr Cymru Welsh Water to establish the location and status of the apparatus. Under the Water Industry Act 1991 Dwr Cymru Welsh Water has rights of access to its apparatus at all times. The proposed development is crossed by a trunk/distribution watermain and a water main pump. Dwr Cymru Welsh Water as Statutory Undertaker has statutory powers to access our apparatus at all times. It may be possible for this watermain to be diverted under Section 185 of the Water Industry Act 1991, the cost of which will be re-charged to the developer. The developer must consult Dwr Cymru Welsh Water before any development commences on site.

Reason for Decision:

The decision to recommend planning permission has been taken in accordance with Section 38 of The Planning and Compulsory Purchase Act 2004, which requires that, in determining a planning application the determination must be in accordance with the Development Plan unless material considerations indicate otherwise. The Development Plan comprises the Neath Port Talbot Local Development Plan (2011-2026) adopted January 2016.

It is considered that the proposed development would not have a detrimental impact upon residential amenity or upon the character and appearance of the surrounding area, and there would be no adverse impact upon highway and pedestrian safety. Hence, the proposed development would be in accordance with Policies SC1, TR2 and BE1 of the Neath Port Talbot Local Development Plan.

Superseded

It is further considered that the decision complies with the Council's well-being objectives and the sustainable development principle in accordance with the requirements of the Well-being of Future Generations (Wales) Act 2015.

Ceri Morris – Head of Planning & Public Protection

IMPORTANT:

(1) Please note that for all decisions issued after 16th March 2016 for outline or full planning permission, a revised decision notice will be issued whenever a subsequent consent is given, for example providing details of any Reserved Matters approvals (outline applications only) and/or approval of conditions (including on Reserved Matters). This will ensure that the current status of the conditions applied to a consent is clear. Accordingly you are advised to visit www.npt.gov.uk/planning to view the application documentation to see if this is the current version, or whether it has been superseded by a more up-to-date revision of this Decision Notice. For Reserved Matters approvals the revised Decision Notice will only be shown under the Outline approval.

(2) Please note that this consent is specific to the plans and particulars approved as part of the application. Any departure from the approved plans will constitute unauthorised development and may be liable to enforcement action. You (or any subsequent developer) should advise the Council of any actual or proposed variations from the approved plans immediately so that you can be advised how to best resolve the matter.

(3) In addition, any conditions that the Council has imposed on this consent will be listed above and should be read carefully. It is your (or any subsequent developers) responsibility to ensure that the terms of all conditions are met in full at the appropriate time (as outlined in the specific condition). Please note that any works carried out without compliance with the conditions attached to this approval will be entirely at the risk of the persons involved and may result in formal action being taken by the Local Planning Authority.

(4) The developer should have regard to Sections 4, 7, 8 and 8A of the Chronically Sick and Disabled Persons Act 1970 and to the British Standards Institution's Code of Practice for "Design of buildings and their approaches to meet the needs of disabled people" (BS 8300:2009+A1:2010).

(5) From 1st October 2012 it has been an offence to install a public sewer or lateral drain without having an adoption agreement in place. From the 1st October 2012 the vast majority of all existing private sewers and lateral drains which link with the public sewer network were transferred to Welsh Water. For further details on how this will affect your development please contact: Welsh Water Developer Services, PO Box 3146, Cardiff, CF30 0EH. Telephone No. 0800 9172652 or email: developer.services@dwrcymru.com.
