

J.P.B TREE SERVICES

Bryn Awel Farm, Crynant, Neath, SA10 8PU

Tel: 07572 013474

Dear Planning,

RE:- 1 x time at 1A, Church road, Seren Sister, Neath, SA10 9DY.

Having viewed a T.P.O. covered lime to the left side of the driveway gates, we are seeking permission to fell to ground level. The lime in question is severely declining in the upper crown and is now a health + Safety hazard as it's next to a public pavement. The reason we have opted to fell is because of previous WPD line clearance pruning which has substantially removed most of the upper crown on the ling side of the tree which would make any crown reduction very unattractive in appearance.

Upon your permission to fell this lime, there is a well established and healthy basal suckering stem which would be retained to take over as a young healthy lime tree.

We feel this request is in the best interests of good home keeping and public safety and look forward to your reply.

REPORT REF: JPB/ATKINS?

yours faithfully,
John Blake
