- 2 Prior to beneficial use of the proposed development commencing, a verification report which demonstrates the effectiveness of the agreed remediation works carried out in accordance with the submitted details under this application, shall be submitted to and agreed in writing with the Local Planning Authority.

Reason

To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors.

Regulatory Conditions

- 3 Adequate provision shall be made for the drainage of the site, to ensure that the drainage of any adjoining land is not interrupted or otherwise adversely affected by the development.

Reason

To ensure satisfactory drainage of the land.

- 4 There must be no interference, alteration or diversion of any ditch, watercourse, stream or culvert crossing or bordering the site, without prior consultation and agreement with the Local Authority.

Reason

To ensure satisfactory drainage of the land.

- 5 No surface water and land drainage run off shall be allowed to connect/discharge, either directly or indirectly to the public sewerage system.

Reason

To ensure satisfactory drainage.

- 6 Foul water and surface water discharges must be drained separately from the site.

Reason

To ensure satisfactory drainage.

- 7 Prior to occupation of the dwelling a vehicular footway crossing shall be provided.

Reason

In the interest of highway and pedestrian safety.

- 8 Any gates shall be of a type which open inwards only, can be seen through and maintained as such thereafter.

Reason

- 9 Prior to occupation 2.4 metres x 43 metres visibility splays shall be provided in either direction at each of the points of access and retained as such thereafter.

Reason

In the interest of highway and pedestrian safety.

- 10 Prior to first beneficial occupation of the dwelling hereby permitted, the shared driveway, 3 no. parking spaces (two in the garage and one parking space) and turning area shall be laid out and be available for use. The spaces/turning area shall thereafter be retained for their intended use in perpetuity. The approved car parking spaces, turning area and driveway shall be hard surfaced in porous asphalt or permeable block paving or a provision must be made to direct run-off water from the hard standing to a permeable or porous area within the curtilage of the dwelling house to a maximum gradient of 1 in 9 and no less than 1 in 150. The drive/hard standing shall be drained so that no surface water including roof and yard flows out onto the public highway or vice versa and maintained as such thereafter.

Reason

In the interest of highway and pedestrian safety.

- 11 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 1995 (as amended for Wales) (or any order revoking and re-enacting that Order with or without modification), no doors, windows or dormer windows (other than those expressly authorised by this permission) shall be constructed without the prior grant of planning permission in that behalf.

Reason:

In order to safeguard the amenities of the area by enabling the Local Planning Authority to consider whether planning permission should be granted for such additional doors / windows, having regard to the particular layout and design of the development and need to protect the amenity of nearby properties, and to accord with Policies BE1 and SC1 of the Neath Port Talbot Local Development Plan.

- 12 Notwithstanding the details submitted, prior to the first beneficial use of the house hereby approved, all first floor side facing windows shall be fitted with obscured glazing, and any part of the window/s that is less than 1.7m above the floor of the room in which it is installed shall be non-opening. The windows shall be permanently retained as such thereafter,

Reason :

In the interest of the amenities of the adjoining property/ies, and to ensure accordance with Policy BE1 of the adopted Neath Port Talbot Local Development Plan

Informatives:

1 The applicant should note that any soakaway must be designed, constructed and located in accordance with the requirements and criteria contained within the Building Regulations. This will ensure no nuisance is created to any lower lying, vulnerable land or the public highway. If ground conditions should prove to be unsatisfactory for a soakaway drainage then the applicant must provide alternative suitable proposals for dealing with surface water run-off.

2 The applicant may wish to consider providing and installing simple water butt/s to collect run off water from the roof areas. The applicant can then use collected water, for non-portable uses, such as garden irrigation.

3 There is a sewer that crosses the application site. No development shall take place within 3 meters either side of the pipeline that crosses the application site, the approximate position of which is shown in red on the attached Dwr Cymru plan.

Reason for Granting Planning Permission

The decision to recommend planning permission has been taken in accordance with Section 38 of The Planning and Compulsory Purchase Act 2004, which requires that, in determining a planning application the determination must be in accordance with the Development Plan unless material considerations indicate otherwise. The Development Plan comprises the Neath Port Talbot Local Development Plan (2011-2026) adopted January 2016.

It is considered that the proposal represents an appropriate form of development that would have no unacceptable impact on visual amenity, residential amenity, highway safety or pedestrian safety. Accordingly, the proposed development is in accordance with Policies SP20, SP21, SC1, H1, TR2 and BE1 of the Neath Port Talbot Local Development Plan.

It is further considered that the decision complies with the Council's well-being objectives and the sustainable development principle in accordance with the requirements of the Well-being of Future Generations (Wales) Act 2015.

Signed:

Nicola Pearce – Head of Planning & Public Protection

Date: 21 November 2019

IMPORTANT:

(1) Please note that for all decisions issued after 16th March 2016 for outline or full planning permission, a revised decision notice will be issued whenever a subsequent consent is given, for example providing details of any Reserved Matters approvals (outline applications only) and/or approval of conditions (including on Reserved Matters). This will ensure that the current status of the conditions applied to a consent is clear. Accordingly you are advised to visit www.npt.gov.uk/planning to view the application documentation to see if this is the current version, or whether it has been superseded by a more up-to-date revision of this Decision Notice. For Reserved Matters approvals the revised Decision Notice will only be shown under the Outline approval.

(2) Please note that this consent is specific to the plans and particulars approved as part of the application. Any departure from the approved plans will constitute unauthorised development and may be liable to enforcement action. You (or any subsequent developer) should advise the Council of any actual or proposed variations from the approved plans immediately so that you can be advised how to best resolve the matter.

(3) In addition, any conditions that the Council has imposed on this consent will be listed above and should be read carefully. It is your (or any subsequent developers) responsibility to ensure that the terms of all conditions are met in full at the appropriate time (as outlined in the specific condition). Please note that any works carried out without compliance with the conditions attached to this approval will be entirely at the risk of the persons involved and may result in formal action being taken by the Local Planning Authority.

(4) The developer should have regard to Sections 4, 7, 8 and 8A of the Chronically Sick and Disabled Persons Act 1970 and to the British Standards Institution's Code of Practice for "Design of buildings and their approaches to meet the needs of disabled people" (BS 8300:2009+A1:2010).

(5) From 1st October 2012 it has been an offence to install a public sewer or lateral drain without having an adoption agreement in place. From the 1st October 2012 the vast majority of all existing private sewers and lateral drains which link with the public sewer network were transferred to Welsh Water. For further details on how this will affect your development please contact: Welsh Water Developer Services, PO Box 3146, Cardiff, CF30 0EH. Telephone No. 0800 9172652 or email: developer.services@dwrcymru.com.
