SIGNAGE :

a) Visual signs must be provided at the communal waste storage and composting facility giving instructions on how to use the facility (identifying different waste types, collection times etc). Signs must comprise simple words, clearly separated from one another, in short sentences. A sans serif typeface with an x height of at least 15mm to 25 mm (lower case letter height) to capital height must be used. Any symbols or pictograms used on visual signs must be at least 100 mm in overall height. Letters, symbols and pictograms must contrast visually with the signboard. Signboards must contrast visually with their backgrounds.

b) Signs and information specified in accordance with section 9.2 of BS 8300:2009.

c) Artificial lighting systems should be designed to maintain a level of illumination that is suitable for blind and partially sighted people and is compatible with electronic and radio frequency installations. Where artificial lighting is provided, it should use high frequency electronic ballasts to avoid any perception of flicker. Space lighting must meet the requirements of the Ene 6 Issue (capable of only accepting lamps having a luminous efficacy greater than 40 lumens per circuit Watt and controlled by push button time switches/PIR sensors or equivalent).
