PROPOSAL: Details pursuant to the discharge of conditions 3 (intrusive site investigations to establish the exact situation in respect of coal mining legacy features) and 4 (arboricultural Impact Assessment, Tree Protection Plan and Tree Protection Method Statement) of planning permission P2020/0399 approved on 2 November 2020

NEATH PORT TALBOT COUNTY BOROUGH COUNCIL as the Local Planning Authority in pursuance of its power under the above mentioned Act and Order hereby **APPROVES** the details.

Informatives:

1 Arboricultural Officer note to developer: Due to the size and location of the four trees and the proposed works which are within a root protection area the recommendations in the ArbTS report dated the 14th December 2020 must be followed at all times. It has been emphasised in the report that the method statement must be followed at all times and a suitably qualified arboriculturist should supervise all works which are within the root protection areas. To retain these trees in a healthy condition will require arboricultural supervision and full compliance with the above tree reports method statement and BS5837:2012.

2 The Coal Authority Disclaimer In formulating this response The Coal Authority has taken full account of the professional conclusions reached by the competent person who has prepared the Coal Mining Risk Assessment or other similar report. In the event that any future claim for liability arises in relation to this development The Coal Authority will take full account of the views, conclusions and mitigation previously expressed by the professional advisers for this development in relation to ground conditions and the acceptability of development.

3 Important Contaminated Land / Coal Authority Development High Risk Area Note to developer: As the application site is located within a Coal Authority Development High Risk Area the developer is advised to ensure that risks from coal mining legacy to the future users of the land /property and neighbouring land are minimised together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other off site receptors by investigation this matter further. Mitigation measures in the form of gas protection measures within the foundations may be required to take account of potential hazards arising from former coal mining activity and as these matters may not have been considered in mining reports submitted in support of this and previous applications at this site you are advised to take your own advice in respect of this matter.

IMPORTANT:

(1) Please note that for all decisions issued after 16th March 2016 for outline or full planning permission, a revised decision notice will be issued whenever a subsequent consent is given, for example providing details of any Reserved Matters approvals (outline applications only) and/or approval of conditions (including on Reserved Matters). This will ensure that the current status of the conditions applied to a consent is clear. Accordingly you are advised to visit www.npt.gov.uk/planning to view the application documentation to see if this is the current version, or whether it has been superseded by a more up-to-date revision of this Decision Notice. For Reserved Matters approvals the revised Decision Notice will only be shown under the Outline approval.

(2) Please note that this consent is specific to the plans and particulars approved as part of the application. Any departure from the approved plans will constitute unauthorised development and may be liable to enforcement action. You (or any subsequent developer) should advise the Council of any actual or proposed variations from the approved plans immediately so that you can be advised how to best resolve the matter.

(3) In addition, any conditions that the Council has imposed on this consent will be listed above and should be read carefully. It is your (or any subsequent developers) responsibility to ensure that the terms of all conditions are met in full at the appropriate time (as outlined in the specific condition). Please note that any works carried out without compliance with the conditions attached to this approval will be entirely at the risk of the persons involved and may result in formal action being taken by the Local Planning Authority.

(4) The developer should have regard to Sections 4, 7, 8 and 8A of the Chronically Sick and Disabled Persons Act 1970 and to the British Standards Institution's Code of Practice for "Design of buildings and their approaches to meet the needs of disabled people" (BS 8300:2009+A1:2010).

(5) From 1st October 2012 it has been an offence to install a public sewer or lateral drain without having an adoption agreement in place. From the 1st October 2012 the vast majority of all existing private sewers and lateral drains which link with the public sewer network were transferred to Welsh Water. For further details on how this will affect your development please contact: Welsh Water Developer Services, PO Box 3146, Cardiff, CF30 0EH. Telephone No. 0800 9172652 or email: developer.services@dwrcymru.com.

IMPORTANT INFORMATION: TOWN AND COUNTRY PLANNING ACT 1990
