Planning Office,
Neath Port Talbot Council,
Brunel Way,
Briton Ferry,
Neath,
SA11 2 GG.

Dear Sir,

Further to our prior communications and to ensure my development complies with Policy BE1 of the Neath Port Talbot Local Development Plan, I hereby request a change to specifications within the original granted planning. These changes do not affect the dimensions of the property in comparison to the granted planning permission (P2020/0698), but relate to a change in colour of the roof tile and window frame, doors, french doors and cills.

Window frames, doors, french doors and cills:

Original planning – Oak UPVC (double glazed).

New requested colour – Grey UPVC (double glazed). Please see picture below in figure 1.

Roof Tile:-

Original planning – Concrete Marley modern tile smooth brown with smooth brown ridge.

New requested colour – Concrete Marley modern tile smooth grey with smooth grey ridge. Please see picture below in figure 1.

Figure 1 – The requested change in tiles and window colour to grey will be the same as the house across the road which is pictured above. The Brick relating to this planning will not be of this type, but as on the original granted planning permission of Dorket honeygold Face brick.

Yours sincerely

Stuart Mapp
