Regulatory Conditions

- 3 The materials to be used in the construction of the external surfaces of the development hereby permitted shall match those used in the existing building.

Reason:

In the interest of the visual amenity of the area and to ensure the development complies with Policy BE1 of the Neath Port Talbot Local Development Plan.

- 4 Root protection areas shall be maintained at all times during construction in strict accordance with the guidelines in BS5837: 2012. Any infringement into these areas will require a method statement for working, which must be submitted to and approved in writing by the local planning authority, prior to any work taking place. The approved method statement shall be adhered to at all times during the construction phase.

Reason:

To comply with Policies SP15 and EN7 of the Neath Port Talbot Local Development Plan, and to ensure that the correct working practices are adhered to, in the interests of avoiding excessive root disturbance and/or damage.

- 5 Adequate provision shall be made for the drainage of the site, to ensure that the drainage of any adjoining land is not interrupted or otherwise adversely effected by the development during the life time of construction.

Reason:

In the interest of amenity of the area and to ensure the development complies with Policy BE1 of the Neath Port Talbot Local Development Plan.

Informatives:

- 1 In relation to condition 4 the developers attention is drawn to comments from the Authority's tree officer that advise; It is possible to reduce the Root Protection Area on one side of a tree but this must be limited to the tree's tolerance and should not be above 20% of the PRA radius.

2 The applicant should note that any soakaway must be designed, constructed and located in accordance with the requirements and criteria contained within the Building Regulations. This will ensure no nuisance is created to any lower lying, vulnerable land or the public highway. If ground conditions should prove to be unsatisfactory for a soakaway drainage then the applicant must provide alternative suitable proposals for dealing with surface water run-off. The applicant may wish to consider providing and installing a simple water "butt" or "butts" to collect run-off water from the roof areas. The applicant can then use collected water, for non-portable uses, such as garden irrigation.

Reason for granting permission.

The proposal represents an appropriate form of development that would have no unacceptable impact on the amenities of neighbouring residents, visual amenity of the area or highway and pedestrian safety. Accordingly, the proposed development is in accordance with Policies BE1 (Design) and TR2 (Design and Access of New Development) of the Neath Port Talbot Local Development Plan.

Signed: 

Ceri Morris – Head of Planning & Public Protection

Date: 18 March 2021

IMPORTANT:

(1) Please note that for all decisions issued after 16th March 2016 for outline or full planning permission, a revised decision notice will be issued whenever a subsequent consent is given, for example providing details of any Reserved Matters approvals (outline applications only) and/or approval of conditions (including on Reserved Matters). This will ensure that the current status of the conditions applied to a consent is clear. Accordingly you are advised to visit www.npt.gov.uk/planning to view the application documentation to see if this is the current version, or whether it has been superseded by a more up-to-date revision of this Decision Notice. For Reserved Matters approvals the revised Decision Notice will only be shown under the Outline approval.

(2) Please note that this consent is specific to the plans and particulars approved as part of the application. Any departure from the approved plans will constitute unauthorised development and may be liable to enforcement action. You (or any subsequent developer) should advise the Council of any actual or proposed variations from the approved plans immediately so that you can be advised how to best resolve the matter.

(3) In addition, any conditions that the Council has imposed on this consent will be listed above and should be read carefully. It is your (or any subsequent developers) responsibility to ensure that the terms of all conditions are met in full at the appropriate time (as outlined in the specific condition). Please note that any works carried out without compliance with the conditions attached to this approval will be entirely at the risk of the persons involved and may result in formal action being taken by the Local Planning Authority.

(4) The developer should have regard to Sections 4, 7, 8 and 8A of the Chronically Sick and Disabled Persons Act 1970 and to the British Standards Institution's Code of Practice for "Design of buildings and their approaches to meet the needs of disabled people" (BS 8300:2009+A1:2010).

(5) From 1st October 2012 it has been an offence to install a public sewer or lateral drain without having an adoption agreement in place. From the 1st October 2012 the vast majority of all existing private sewers and lateral drains which link with the public sewer network were transferred to Welsh Water. For further details on how this will affect your development please contact: Welsh Water Developer Services, PO Box 3146, Cardiff, CF30 0EH. Telephone No. 0800 9172652 or email: developer.services@dwrcymru.com.
