

ADDITIONAL NOTES:

EXTERNAL WALLS: - (U Value to be 0.21 W/m²/K)

100mm dense concrete blockwork

50mm clear air cavity

75mm insulation units with racking clips

100mm - 75mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with

concrete / sand mortar (1:3) with 3mm plaster skim finish.

50mm insulation units with racking clips

100mm dense concrete blockwork inner leaf with
