

Declaration of Compliance to BS3882:2015 and CLEA SGV Residential with Plant Uptake

Soil Source: Neal Soil Suppliers Limited BS3882:2015 Topsoil

This declaration confirms that the topsoil represented by the attached BS3882 Topsoil Classification Report conforms to the requirements of the British Standard for Topsoil (BS3882:2015).

The sample was sampled and tested in accordance with the requirements of BS3882:2015 and Neal Soil Suppliers Integrated Management Systems

- Samples are taken for analysis every 5000tonnes (~3000m³) of product.
- Analysis certificates are retained for a period of 3years.

Laboratory analysis is undertaken at UKAS and MCERTS accredited laboratory.

- Laboratory methods are in accordance with the set agreed methodology within BS3882:2015

All Neal Soil Suppliers Limited products are produced to a Quality Management System approved by United Registrar of Systems to ISO9001:2015 standard.

The declaration also confirms that the material has been correlated to the CLEA SGV General Assessment Guidance and specification for Residential Topsoil with Plant Uptake.

- Material as previously stated will be sampled in accordance with requirements of BS3882:2015 and Neal Soil Suppliers Integrated Management Systems every 5000tonnes (~3000m³)
- Material tested as per Neal Soil Suppliers Limited Topsoil Solid Chemical Analysis requirements for soils for re-use.
