

Planning Application for Canine Microchipping and Scanning

Site: Building to rear of:
34 Gurnos Road,
Ystalyfera

Date: 23rd June 2021

Opening times: Mon -Friday - 10am to 5pm, *(but could reduce the time to 4pm if that would be more suitable)*

Services provided:

- 1) Dog scanning
- 2) Artificial Insemination
- 3) Microchipping

We anticipate approximately 5 to 10 customers per day at its peak (2-5 more likely for first 6 months)

Customers will be served on an appointment basis. Each customer will be at the premises for around 5 to 15 minutes, depending on the service that is required.

Only one dog / customer will be permitted in the premises at any single time. This is to avoid dogs meeting each other, cutting out any noise between the dogs, and also obeying current covid restrictions and rules.

Parking for each customer can be catered for in either of the two car parking areas, accessed off Gurnos road and Swan road. The premises is then accessed via an electronically managed access gate with intercom off the existing footpath.
