SAFETY, HEALTH AND ENVIRONMENTAL INFORMATION

In addition to the hazards/risks normally associated with the types of work detailed on this drawing, note the following significant residual risks (Reference shall also be made to the design hazard log).

Construction

- Requirement for services diversions in advance of works to install new culvert
- Potential for encountering unplotted services or private underground services where no records exist
- Tree removal required on line of culvert and structures
- Works to inlet required in Ancient Woodland
- PROW exists in Woodland adjacent to inlet structure
- Access to be maintained to residential and commercial properties on Lancaster Close
- Thrust boring / micro tunnelling required beneath existing A465 embankment and footpath near residential properties
- Crossing foul sewer and laying new culvert adjacent to existing CSO in South field

	Horses present in South
	Maintenance / Cleaning

- Trash screen will require regular inspection and clearance
- Trash screen and outfall to be inspected after storm events
- Trash screen to be raked manually and not with a machine
- The orifice plate on the 600mm culvert at the inlet shall remain fixed and shall not be removed. Required to reduce flow downstream and prevent flooding.
- Sump within the inlet shall be cleared with a JCB 3CX machine from the East of the structure

Use
As a

Decommissioning / Demolition
