

Trees - Reasons For Works

This section only needs to be completed if you are seeking consent for proposed works to trees under a Tree Preservation Order (TPO)

Please state the reasons for carrying out the proposed works on the tree(s):

T1 Cherry - Reduce canopy overall by 1.5-2m
T2 Sycamore - Remove to ground level. - This tree has poor form, the canopy has excessive squirrel damage. As a result of proposed pruning to T3 oak - the result long term would mean an unsafe/dangerous canopy in T2 sycamore.
T3 Oak - Reduce overhang by 2.5-3m to vertical or lateral growth points as limbs are too close to property.
G1 Sycamore - Remove to ground level - These trees have suppressed canopies like T2, along with a lot of squirrel damage in the canopy. as with T2, the pruning of higher trees would result in vigorous unsafe growth within G1. (Customer is happy to replant with native species)

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the documents specified.

☒ Yes ☐ No

Health or safety of the tree(s) - e.g. it is diseased, fears that it might break or fall:

If Yes, information required - report by a tree professional (e.g. arboriculturist, horticultural adviser). ☐ Yes ☐ No

Alleged subsidence damage:

If Yes, information required: Full report by an engineer or surveyor, together with one from a tree professional - to include date and description of property damage; sub-soil type and shrinkage potential; location of any roots found and their identification; history of ground and building movement through a distortion survey and/or level or crack monitoring over suitable period; other vegetation in
