Dear Sir

RE. ABERPERGWM COLLIERY PLANNING PERMISSION P/2014/0729, DISCHARGE OF CONDITION 71

Application for an extension to and reconfiguration of the underground coal workings; Creation of a mine waste repository with the retention and improvement of the associated haul road (to dispose of mine waste and discard from coal preparation at the mine) and the delivery of further peat habitat mitigation works; Mine Surface development, including - regularisation and time extension of existing mine related operations and mine surface development, consolidation of existing planning permissions and planning controls, construction of infrastructure/buildings, formation of materials storage and stocking areas, drainage works, and landscaping. (Further information received 10 July 2018)

CONDITION 71, REMEDIATION OF ROCK TIP LAGOONS

CONDITION 71, Within 12 months of the date of re-commencement of underground operations at the mine as notified in accordance with Condition 3 above, a remediation plan for the Rock Tip (shown colored blue on Drawing Number CA10605-002) shall be submitted to and approved in writing by the Local Planning Authority. The remediation plan shall include inter alia a scheme of surface water drainage control and shall be implemented as approved.

Reason

To address an outstanding liability in the interests of the environment.

Please find enclosed the original and three copies of the application form and associated documents and plans in respect of the application for the discharge of Conditions 71 of planning Permission P/2014/0729.

Also enclosed is and a cheque for the value of £115 in respect of the application fee.
