

DUST MANAGEMENT PLAN

MARGAM YOUTH CLUB EXTENSION

PLANNING APP: P2021/0046

- The date and vehicle registration number of any construction vehicle that is observed carrying material that has the potential to release dust during transit and is not covered. Details of measures taken to prevent further occurrence shall be included
- Record the findings of daily on-site and off-site inspections, where receptors (inc. roads) are nearby, to monitor dust, record inspection results.

If necessary, and at the reasonable discretion of the highway authority, a road sweeping vehicle will be used to keep the surrounding roads clean and suppress any dust that may occur. This also includes as a result of any complaints or dust identified during daily inspections

NOTE:

The client representative responsible for all Environmental matters is:

Rob Deeney

Margam Youth Club

07796695304 – robert.deeney@tatasteeleurope.com

A site notice detailing the above will be erected and retained for the whole of the construction phase so as to allow any concerns to be raised with immediate effect.

On appointment of a principal contractor to undertake the works, contact details will also be provided and erected on site for the duration of the project, detailing the person responsible for Environmental matters within the organisation.

LOCATION

The premises deemed to be closest to the site and in turn most susceptible to any air quality issues that could arise are Knox Street and Knights Road.

The Works Programme shall be communicated to residents at the following addresses throughout the project in order to make them aware of tasks proposed.

It is intended that this project will not cause any disruptions to residents within the vicinity.

SIGNED:

DATE: 24/06/21

This management plan, including the inspections within, shall be implemented on site throughout the whole of the project, monitored frequently and reported on during all progress meetings.
