## Identification of Tree(s) and Description of Works

Before answering these questions you might find it helpful to consult a tree surgeon to clarify what needs to be done.

Please provide a full and clear description of:

- The proposed works
- The trees affected including species and location

Cut back and reduce the branches of the English Oak tree growing against the leg of the Tower. Cut and clear the fence line area and will cut the branches back on the Oak tree by 3m of the towers legs .

**Trees protected by Tree Preservation Order should be numbered according to the First Schedule of the Tree Preservation Order. For example - T3 oak; two beech and one birch in G2.**

**You must identify the trees on a sketch plan showing the location in relation to building(s), named roads and boundaries.**

Please state the reference you have given the plan (as described above)

Arqiva 496512

Your plan needs to show the precise location of the tree(s) in relation to nearby property/roads/boundaries. It should, therefore:

- indicate the main features of the site where the tree(s) stand and its surroundings; in particular, you should:
  - mark and name surrounding roads
  - sketch in buildings, including adjoining properties
  - add house numbers or names
- mark the position of the tree(s) to which you want to carry out work
- identify them by the number shown in the Tree Preservation Order where possible; if you use a different number, please make sure that this can be matched with your description of the tree(s)
- if there are many trees on the site, make clear which tree(s) are included in this application by:
  - marking all trees on the plan, but only numbering those to which you want to carry out work
  - showing the approximate distance between the application tree(s) and buildings
  - adding other relevant features on the site (e.g. greenhouse, paths)

If it is impossible to identify the tree(s) accurately on the plan (e.g. because they are part of a woodland or group of trees), please identify their approximate location on the plan and provide details of how the tree(s) are marked on site (e.g. high visibility tape, tree tags, paint, etc); trees must not be marked by scarring or cutting into the bark.

## Trees - Reason(s) for work(s)

Please state the reasons for carrying out the proposed works on the tree(s)

Trees growing over fence and close to tower leg. These will require cutting back.

**Do your reasons for carrying out the proposed works include any of the following**

Health or safety of the tree(s) - e.g. it is diseased, fears that it might break or fall

- ☐ Yes  
☒ No

Alleged subsidence damage

- ☐ Yes
