
A1

Legend

- Planning Permission boundary for Forest Quarry 2 Extension ━
- Forest Quarry 2 Extension Limit of Excavation ╍
- FQ2E Peat Conservation Area ━

Stored Soils

- Overburden Mound 2 and Soil Storage Mounds (Peat/Subsoil Composite) (10.4 Ha) ▨
- Subsoil and Soil Forming Material on Graded Backfill at Final Level (0.6 Ha) ■

Soils Reinstated on Restored Areas

- Forest Quarry OCCS (Peat/Subsoil Composite)(87,000m³) ■
- Forest Quarry 2 OCCS (Peat/Subsoil Composite) (33,485m³) ■

Remaining Soils

- Rhondda Series (Stagnohumic Surface Water Clay) ▨
- Crowdy Series (Raw Oligo-Amorhous Peat) ▨
- Winter Hill Series (Raw Oligo-Fibrous Peat) ▨
- Gelligaer Series (Ferric Stanopodzols) ▨

Note:
For further details of soils in long-term storage and soils available for recovery from previously restored ground see Table 2 Part 1 and 2 contained within the Soil Use and Management Strategy.

Mine Waste Repository Boundaries

- Approved extent of MWR ☐
- Conceptual re-design for MWR ☐
- Extent of tipping (November 2021) ☐
- Potential extent of tipping (Nov 2023) ☐
- Tipping Phase ☐
