Dear Sir / Madam

Re: Proposed Solar and Storage Project, north west of Pyle in the County of Neath Port Talbot

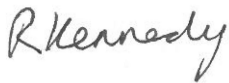

Request for a Screening Direction under the Town and Country Planning (Environmental Impact Assessment) (Wales) Regulations 2017: Part 8, Regulation 31.

With respect to the above Regulations, we hereby submit a request to your Authority on behalf of Octo Partners for a Screening Direction in respect of the potential Eirlys Solar and Storage Project to the north west of Pyle and east of Margam in the County Borough of Neath Port Talbot.

Please find accompanying this letter the information requirements set out in Regulation 31, namely a plan sufficient to identify the land (Figure 1), a description of the nature and purpose of the development and its potential effects on the environment, and any further information considered by the applicant to be pertinent to your determination.

If you require further information to inform the determination of your screening direction or wish to discuss other aspects of the proposed development, please do not hesitate to contact me. I look forward to liaising with your Authority on this potential scheme.

Yours sincerely,

Rachel Kennedy
