Dear Selwyn

Quotation to carry out tree works at you property

The following proposals are numbered as per the plan provided. Trees numbered 1 -8 are believed to form part of a Tree Preservation order (TPO) and must not be worked upon without consent from the local authority planning dept.

Tree 1 Semi mature Ash – in decline, Diseased with Ash Dieback (*Hymenoscyphus fraxineus*)
Fell to ground to remove hazard.

Trees 2 -4 Semi mature Sycamores – Evidence of root heave with several other trees already subjected to wind throw in immediate vicinity - poor soil conditions. Recommend Felling.

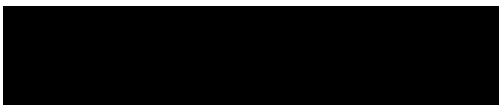

Trees 5 and 6 - Mature Silver Birch – Evidence of root heave with several other trees already subjected to wind throw in immediate vicinity poor soil conditions. Recommend Felling.

Tree 7 Mature Silver Birch – Split in stem – recommend removal.

Tree 8 Mature Silver Birch – remaining stem monolith – rotten – recommend removal.

Tree 9 Mature Silver Birch situated in front garden – Crown reduce by 20%

Chip and remove silver Birch arisings from the front garden, all other arisings to be stacked in woodland to form habitat piles.

I hope this meets with your approval, but should you require any additional information, then do not hesitate to contact us further.
