Details of the pre-application advice received

From the information provided, it appears that your enquiry relates to the potential of constructing a part single storey par two storey rear extension to the property, a detached dwelling. I can confirm that planning permission would be required for the proposed development. The fee for the application would be £230.

The proposed extension will extend for a length of nearly 6 metres however it is noted that extension will be set off the boundary by 3 metres and complies with the 45 degree line drawn from the nearest neighbouring property's window. This guidance relates to both ground and first floor windows and both will need to comply with the 45 degree code.

As part of the proposed development the roof design to one side of the original dwelling will be converted from a gable design to a pitched roof, it is suggested that the roof to the other side of the dwelling should be altered to a pitched roof to match the amended roof design on the other side.

The windows to the side elevation will overlook the open space to one side and the remaining window to the side elevation adjacent to the neighbouring property no. 36 will serve bathrooms/w.c. and should be of obscure glazing. The dwellings to the rear appear to comply with the Council's adopted guideline for overlooking windows and as such it is unlikely to raise any significant issues in terms of overlooking.

It is suggested all external materials need to match the existing dwelling.

Please note that the above advice is offered without prejudice to the submission of a formal planning application.
