---

**DATE REGISTERED:** 24 March 2022

**APPLICATION NO:** P2022/0054

**LOCATION:** Land Adjacent , 16 Morgan Street, Trebanos, Pontardawe, SA8 4DW

**PROPOSAL:** Detached split level dwelling (outline with all matters reserved)

**NEATH PORT TALBOT COUNTY BOROUGH COUNCIL** as the Local Planning Authority in pursuance of its power under the above mentioned Act and Order hereby **PERMITS** the development as described above to be carried out in accordance with the application and the plans submitted therewith, subject to compliance with the following conditions:

**Conditions:-**

**Time Limit Conditions**

- 1 Details of the access, appearance, landscaping, layout, and scale, (hereinafter called "the reserved matters") shall be submitted to and approved in writing by the Local Planning Authority before any development begins and the development shall be carried out as approved.

Reason:

The application was made for outline planning permission.

- 2 Any application for approval of the reserved matters shall be made to the Local Planning Authority not later than three years from the date of this permission.

Reason:

To comply with the requirements of Section 92 of the Town and Country Planning Act 1990.

- 3 The development shall begin either before the expiration of five years from the date of this permission or before the expiration of two years from the date of approval of the last of the reserved matters to be approved, whichever is the later.

Reason:

To comply with the requirements of Section 92 of the Town and Country Planning Act 1990.

#### List of Approved Plans

- 4 The development shall be carried out in accordance with the following approved plans and documents:
  - JD001 - Location and Block Plan - EXISTING
  - JD002 - Location and Block Plan - PROPOSED
  - JD003 - Longitudinal Section - 1 of 2
  - JD004 - Longitudinal Section - 2 of 2
  - JD005 - Cross Section

Reason:

In the interests of clarity.

#### Pre-Commencement Conditions

- 5 Prior to the submission of the first reserved matters:

(i) A methodology for the investigation of the stability of the ground at the application site shall be submitted to and approved in writing by the Local Planning Authority. This methodology shall identify the potential risks from landslips and ground instability at the application site by indicating the nature and extent of any land instability and any other retaining structures

(ii) A land stability investigation shall be carried out in accordance with the approved methodology, and the results submitted to and approved in writing by the Local Planning Authority as part of the first reserved matters. In the event that the land stability investigation confirms the need for remedial works to treat any land instability issues at the site to ensure the safety and stability of the proposed development, a report specifying the measures to be taken to ensure that a suitability designed dwelling is constructed at the site shall be submitted to and agreed in writing with the Local Planning Authority. This should include details in relation to proposed foundations for the building.

(iii) Should mitigation be required by ii, the site shall be remediated in accordance with the approved mitigation measures as part of the development and in accordance with an approved timeframe of works.

Reason

To ensure that risks from land instability to the future users of the land and neighbouring land are minimised, and to ensure that the development can be carried

out safely without unacceptable risks to workers, neighbours and the general public as the site is located within an area of very high potential for natural slope instability and to ensure compliance with Policy BE1 and EN8 of the Neath Port Talbot Local Development Plan.

- 6 As part of the first reserved matters application a scheme of Ecological Enhancement Measures and an Implementation Timetable shall be submitted to and approved in writing by the Local Planning Authority. The Ecological Enhancement Measures shall be undertaken in accordance with the approved scheme and Implementation Timetable and retained thereafter for the lifetime of the development.

Reason:

In the interests of biodiversity and to provide Ecological Enhancement Measures on site in accordance with Policy 9 of Future Wales and so as to accord with Policy SP15 of the adopted Neath Port Talbot Local Development Plan.

- 7 As part of the first reserved matters applications details of the finished floor, ridge and ground level (including cross and longitudinal sections), of the development shall be submitted to, and approved in writing by the local planning authority. The development shall be completed in accordance with these agreed levels unless otherwise agreed in writing with the Local Planning Authority.

Reason :

In the interest of the amenities of the adjoining property/ies and to ensure a satisfactory street picture and to ensure accordance with Policy BE1 of the adopted Neath Port Talbot Local Development Plan.

- 8 As part of the first reserved matters application an arboricultural method statement and updated tree survey (appropriate and specific to the approved scheme), to include details of all works within the root protection area, or crown spread [whichever is greater], of any retained tree, shall be submitted to and agreed in writing by the Local Planning Authority. If commencement of the development is delayed by more than 12 months from the date of the most recent arboricultural method statement, a further updated statement shall be undertaken, and submitted to and approved in writing by the local planning authority before development commences. The development shall be implemented in full accordance with the approved details.

Reason:

In the interest of clarity and good tree husbandry and to ensure all existing trees are protected throughout the construction of the development, in the interest of visual amenity, and to ensure the development complies with Policies SP15 and BE1 of the Neath Port Talbot Local Development Plan.

- 9 As part of the first reserved matters application an assessment of the nature and extent of contamination affecting the application site area shall be submitted to and approved in writing by the Local Planning Authority. This assessment must be carried out by or under the direction of a suitably qualified competent person in accordance with BS10175 (2011) 'Investigation of Potentially Contaminated Sites Code of Practice' and shall assess any contamination on the site, whether or not it originates on the site. The report of the findings shall include:

(i) a desk top study to identify all previous uses at the site and potential contaminants associated with those uses and the impacts from those contaminants on land and controlled waters. The desk study shall establish a 'conceptual site model' (CSM) which identifies and assesses all identified potential source, pathway, and receptor linkages;

(ii) an intrusive investigation to assess the extent, scale and nature of contamination which may be present, if identified as required by the desk top study;

(iii) an assessment of the potential risks to:

- human health,
  - groundwater and surface waters
  - adjoining land,
  - property (existing or proposed) including buildings, crops, livestock, pets, woodland and service lines and pipes,
  - ecological systems,
  - archaeological sites and ancient monuments; and-
- any other receptors identified at (i)

(iv) an appraisal of remedial options, and justification for the preferred remedial option(s).

Reason:

To ensure that information provided for the assessment of the risks from land contamination to the future users of the land, neighbouring land, controlled waters, property and ecological systems is sufficient to enable a proper assessment, and to ensure compliance with Policies SP16 and EN8 of the Neath Port Talbot Local Development Plan.

- 10 If required by condition 9, no development shall commence on site until a remediation scheme to bring the site to a condition suitable for the intended use by removing any unacceptable risks to human health, buildings, other property and the natural and historic environment shall be prepared and submitted to and approved in writing with the Local Planning Authority. The scheme shall include all works to be undertaken, proposed remediation objectives, remediation criteria and site management procedures. The measures proposed within the remediation scheme shall be implemented in accordance with an agreed programme of works.

Reason:

To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors, and to ensure compliance with Policies SP16 and EN8 of the Neath Port Talbot Local Development Plan.

- 11 As part of the first reserved matters application details of the proposed siting, design and finish of all proposed means of enclosure to all property boundaries shall be submitted to and approved in writing with the Local Planning Authority. The means of enclosure shall be erected in accordance with the approved details prior to the occupation of the proposed development and retained as such thereafter.

Reason:

In the interest of visual amenity and to ensure compliance with Policy BE1 of the Neath Port Talbot Local Development Plan.

- 12 As part of the first reserved matters application a scheme for landscaping, which shall include indications of all existing trees and hedgerows on the land, and details of any to be retained, taking into account potential growth and also a scheme for replacement tree planting shall be submitted to and agreed in writing with the Local Planning Authority. The approved scheme shall be carried out in the first planting season after completion of the development or its occupation, whichever is the sooner and any trees or plants which within a period of five years are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and the same species, unless the local planning authority gives written consent to any variation.

Reason

In the interest of visual amenity and to accord with Section 197 of the Town and Country Planning Act, 1990.

Action Conditions

- 13 Prior to beneficial use of the proposed development commencing, and if required as a result of condition 9, a verification report which demonstrates the effectiveness of the agreed remediation works carried out in accordance with condition 10 shall have been submitted to and approved in writing by the Local Planning Authority.

Reason:

To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors and to ensure compliance with Policies SP16 and EN8 of the Neath Port Talbot Local Development Plan.

- 14 In the event that contamination is found at any time when carrying out the approved development that was not previously identified, work on site shall cease immediately and shall be reported in writing to the Local Planning Authority. A Desk Study, Site Investigation, Risk Assessment and where necessary a Remediation Strategy must be undertaken in accordance with the following document:- Land Contamination: A Guide for Developers (WLGA, WAG & EAW, July 2006). This document shall be submitted to and agreed in writing with the Local Planning Authority. Prior to occupation of the development, a verification report which demonstrates the effectiveness of the agreed remediation, shall be submitted to and agreed in writing with the Local Planning Authority.

Reason:

To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other off site receptors, and to ensure compliance with Policies SP16 and EN8 of the Neath Port Talbot Local Development Plan.

- 15 Notwithstanding the submitted plans / information, prior to the commencement of the construction of any retaining wall, full details including calculations, specifications,

materials and a landscaping scheme for any retaining structures that may be required, together with a detailed method statement detailing how the works are to be carried out, shall be submitted to and approved in writing by the Local Planning Authority. Any retaining wall shall be constructed in accordance with the agreed details and retained as such thereafter.

Reason:

In the interests of public safety and to ensure compliance with Policy BE1 and EN8 of the Neath Port Talbot Local Development Plan.

- 16 The development hereby approved shall be connected to the mains sewerage system prior to the first beneficial use of the dwelling and retained as such thereafter.

Reason:

In the interest of satisfactory drainage of the site, and ensure the development complies with Policy SP16 and BE1 of the Neath Port Talbot Local Development Plan.

- 17 All retained trees that may be directly affected by the proposed development, including encroachment into Root Protection Areas, shall be adequately protected as specified in Figure 2 (page 20) BS5837:2012 'Trees in relation to Construction' by the provision of root zone protection (protective fencing). The erection of fencing for the protection of any retained tree shall be undertaken before any equipment, machinery or materials are brought on to the site for the purposes of the development, and shall be maintained until all equipment, machinery and surplus materials have been removed from the site. Nothing shall be stored or placed in any area fenced in accordance with this condition and the ground levels within those areas shall not be altered, nor shall any excavation be made, without the written consent of the local planning authority.

Reason:

To ensure all existing trees are protected throughout the construction of the development, in the interest of visual amenity, and to ensure the development complies with Policies SP15 and BE1 of the Neath Port Talbot Local Development Plan.

- 18 Prior to their first use, the parking area and drive shall be surfaced in porous material, or provision must be made to direct run-off water from the hard surface to a permeable porous area or surface within the curtilage of the dwelling and must be permanently maintained so that it continues to comply with the above requirements to a maximum gradient of 1 in 9 drained so that no surface water flows out onto the public highway or into the highway drainage system and shall be maintained as such thereafter.

Reason

In the interest of highway and pedestrian safety and to and ensure the development complies with Policy SP16 and BE1 of the Neath Port Talbot Local Development Plan.

- 19 As part of the first reserved matters application details of a proposed car parking scheme to serve the approved development shall be submitted to and approved in

writing with the Local Planning Authority. The approved car parking spaces /scheme shall be provided prior to the first beneficial use of the development hereby permitted commencing, and shall thereafter be used solely for car parking for the benefit of the occupants of the dwelling of which it forms part and their visitors and for no other purpose and permanently retained as such.

Reason:

In the interest of highway safety and to ensure the development complies with Policy TR2 of the Neath Port Talbot Local Development Plan.

### Regulatory Conditions

- 20 Any gates provided across the access drive(s) shall be of a type which open inward only and can be seen through, and shall be retained as such thereafter.

Reason:

In the in interest of highway and pedestrian safety and to ensure compliance with Policy TR2 of the Neath Port Talbot Local Development Plan.

- 21 Any existing drainage pipe, highway drain or highway run-off entering, crossing or discharging onto the development site must be accommodated into the site development works, by the developer. No building shall be erected over or within the safety zone of any culvert or watercourse.

Reason

To prevent hydraulic overloading of the public sewerage system, to protect the health and safety of existing residents and ensure no pollution of or detriment to the environment, and to and ensure the development complies with Policy SP16 and BE1 of the Neath Port Talbot Local Development Plan.

- 22 There must be no interference, alteration or diversion of any ditch, watercourse, stream or culvert crossing or bordering the site, without prior consultation and agreement with the local authority.

Reason:

To prevent hydraulic overloading of the public sewerage system, to protect the health and safety of existing residents and ensure no pollution of or detriment to the environment, and to and ensure the development complies with Policy SP16 and BE1 of the Neath Port Talbot Local Development Plan.

- 23 Prior to their use in the construction of the development hereby permitted, details of the materials to be used in the construction of the external surfaces of the development shall have been submitted to and approved in writing by the Local Planning Authority. Development shall be carried out in accordance with the approved details.

Reason:

In the interest of the visual amenity of the area and to ensure the development complies with Policy BE1 of the Neath Port Talbot Local Development Plan.

- 24 The sole point of access to the dwelling shall be via Morgan Street only, with no access to be created off Dan Y Graig Road to the rear of the plot.

Reason

In the interest of highway and pedestrian safety and as Dan-y-graig Road is a substandard road and to ensure compliance with Policy TR2 of the Neath Port Talbot Local Development Plan.

- 25 No surface water and/or land drainage shall be allowed to connect directly or indirectly with the public sewerage network.

Reason:

To prevent hydraulic overloading of the public sewerage system, to protect the health and safety of existing residents and ensure no pollution of or detriment to the environment, and to ensure the development complies with Policy SP16 and BE1 of the Neath Port Talbot Local Development Plan.

Informatives:

- 1 SAB approval will be required prior to any work commencing. To commence work without SAB Approval is a breach of Paragraph 7 (1) Schedule 3 of the Flood and Water Management Act 2010 whereby legal action will be taken by the Authority under The Sustainable Drainage (Enforcement) (Wales) Order 2018. Guidance and applications can be found on [www.npt.gov.uk/sab](http://www.npt.gov.uk/sab)  
NOTES TO APPLICANT Please note that from 7th January 2019, all new developments of more than 1 house, or where a construction area is of 100m<sup>2</sup> or more, plus if the SAB authority believe that any redevelopment of land has significant surface water drainage implications. This will require sustainable drainage - built in accordance with mandatory standards for sustainable drainage published by Welsh Ministers - to manage on-site surface water. More information is available in Schedule 3 of the Flood & Water Management Act 2010. These systems must be approved by the Council's SAB & Highway Development Control Section before construction work begins. In this respect it is essential that a developer of any such project gain SAB approval of its surface water drainage alongside any relevant planning permission. You will not be allowed to start construction until both permissions have been approved. If you have not done so already, and your development would not fall into any of the relevant exceptions, you are therefore strongly encouraged to request further advice from the SAB. Involving the SAB Officers in pre-application discussions will allow for SuDS drainage matters (to ensure suitability of proposed SuDs design in line with national standards and adequate site layout) to be considered alongside the assessment of planning merits. There is an additional charge of £250 for this service. This can be as part of any agreed further pre-application submissions with the Planning Authority (recommended) or independently/ direct with the SAB. You are advised, however, that failing to engage in joint pre-application discussions has the potential to lead to delays and, most notably, the potential need to obtain further planning permission should any agreed SuDS design not be compliant with any relevant planning permission. Further details are available at [www.npt.gov.uk/sab](http://www.npt.gov.uk/sab)
- 2 Advisory Notes As of 7th January 2019, this proposed development may be subject to Schedule 3 of the Flood and Water Management Act 2010. In the event this proposed development amounts to a total impermeable area of 100sqm or more, approval of Sustainable Drainage Systems (SuDS) features will be required in accordance with the 'Statutory standards for sustainable drainage systems - designing, constructing, operating

and maintaining surface water drainage systems'. It would therefore be recommended that the developer engage in consultation with Neath Port Talbot County Borough Council, as the determining SuDS Approval Body (SAB), in relation to their proposals for SuDS features. Please note, Dwr Cymru Welsh Water is a statutory consultee to the SAB application process and will provide comments to any SuDS proposals by response to SAB consultation. The applicant may need to apply to Dwr Cymru / Welsh Water for any connection to the public sewer under S106 of the Water Industry Act 1991. If the connection to the public sewer network is either via a lateral drain (i.e. a drain which extends beyond the connecting property boundary) or via a new sewer (i.e. serves more than one property), it is now a mandatory requirement to first enter into a Section 104 Adoption Agreement (Water Industry Act 1991). The design of the sewers and lateral drains must also conform to the Welsh Ministers Standards for Gravity Foul Sewers and Lateral Drains, and conform with the publication "Sewers for Adoption"- 7th Edition. Further information can be obtained via the Developer Services pages of [www.dwrcymru.com](http://www.dwrcymru.com). The applicant is also advised that some public sewers and lateral drains may not be recorded on our maps of public sewers because they were originally privately owned and were transferred into public ownership by nature of the Water Industry (Schemes for Adoption of Private Sewers) Regulations 2011. The presence of such assets may affect the proposal. In order to assist us in dealing with the proposal the applicant may contact Dwr Cymru Welsh Water to establish the location and status of the apparatus. Under the Water Industry Act 1991 Dwr Cymru Welsh Water has rights of access to its apparatus at all times. Our response is based on the information provided by your application. Should the proposal alter during the course of the application process we kindly request that we are re-consulted and reserve the right to make new representation. If you have any queries please contact the undersigned on 0800 917 2652 or via email at [developer.services@dwrcymru.com](mailto:developer.services@dwrcymru.com) Please quote our reference number in all communications and correspondence. Yours faithfully, Sion Jones Development Control Officer

3 Application site is impacted upon by a Gas Pipeline(s) The application site contains a 'Consult National Grid Plant Protection' (NG Gas Pipeline - Plant Protection Consult) constraint. Please contact your local Gas distributor and/or National Grid for comments on this application. As this matter is the responsibility of the developer to fully investigate, the developer is advised to contact the pipeline provided in order to seek appropriate technical guidance, asset information, and essential safety information as well as in order to establish the exact position of the pipeline(s) prior to any works on site.

4 Welsh Water Advisory Notes As of 7th January 2019, this proposed development may be subject to Schedule 3 of the Flood and Water Management Act 2010. In the event this proposed development amounts to a total impermeable area of 100sqm or more, approval of Sustainable Drainage Systems (SuDS) features will be required in accordance with the 'Statutory standards for sustainable drainage systems - designing, constructing, operating and maintaining surface water drainage systems'. It would therefore be recommended that the developer engage in consultation with Neath Port Talbot County Borough Council, as the determining SuDS Approval Body (SAB), in relation to their proposals for SuDS features. Please note, Dwr Cymru Welsh Water is a statutory consultee to the SAB application process and will provide comments to any SuDS proposals by response to SAB consultation. The applicant may need to apply to Dwr Cymru / Welsh Water for any connection to the public sewer under S106 of the Water industry Act 1991. If the connection to the public sewer network is either via a lateral drain (i.e. a drain which extends beyond the connecting property boundary) or via a new sewer (i.e. serves more than one property), it is now a mandatory requirement to first enter into a

Section 104 Adoption Agreement (Water Industry Act 1991). The design of the sewers and lateral drains must also conform to the Welsh Ministers Standards for Gravity Foul Sewers and Lateral Drains, and conform with the publication "Sewers for Adoption"- 7th Edition. Further information can be obtained via the Developer Services pages of [www.dwrcymru.com](http://www.dwrcymru.com). The applicant is also advised that some public sewers and lateral drains may not be recorded on our maps of public sewers because they were originally privately owned and were transferred into public ownership by nature of the Water Industry (Schemes for Adoption of Private Sewers) Regulations 2011. The presence of such assets may affect the proposal. In order to assist us in dealing with the proposal the applicant may contact Dwr Cymru Welsh Water to establish the location and status of the apparatus. Under the Water Industry Act 1991 Dwr Cymru Welsh Water has rights of access to its apparatus at all times. Our response is based on the information provided by your application. Should the proposal alter during the course of the application process we kindly request that we are re-consulted and reserve the right to make new representation. If you have any queries please contact the undersigned (Sion Jones) on 0800 917 2652 or via email at [developer.services@dwrcymru.com](mailto:developer.services@dwrcymru.com)

5 The tandem parking spaces should have a minimum length of 10.8m. There should be a minimum width of 6.2m for side by side parking. The proposed parking arrangement isn't acceptable for the reasons above and will lead to indiscriminate parking along a highway where this is already an issue, exacerbating the impact on highway and pedestrian safety.

6 SAB approval will be required prior to any work commencing. To commence work without SAB Approval is a breach of Paragraph 7 (1) Schedule 3 of the Flood and Water Management Act 2010 whereby legal action will be taken by the Authority under The Sustainable Drainage (Enforcement) (Wales) Order 2018. Guidance and applications can be found on [www.npt.gov.uk/sab](http://www.npt.gov.uk/sab) NOTES TO APPLICANT Please note that from 7th January 2019, all new developments of more than 1 house, or where a construction area is of 100m<sup>2</sup> or more, plus if the SAB authority believe that any redevelopment of land has significant surface water drainage implications. This will require sustainable drainage - built in accordance with mandatory standards for sustainable drainage published by Welsh Ministers - to manage on-site surface water. More information is available in Schedule 3 of the Flood & Water Management Act 2010. These systems must be approved by the Council's SAB & Highway Development Control Section before construction work begins. In this respect it is essential that a developer of any such project gain SAB approval of its surface water drainage alongside any relevant planning permission. You will not be allowed to start construction until both permissions have been approved. If you have not done so already, and your development would not fall into any of the relevant exceptions, you are therefore strongly encouraged to request further advice from the SAB. Involving the SAB Officers in pre-application discussions will allow for SuDS drainage matters (to ensure suitability of proposed SuDS design in line with national standards and adequate site layout) to be considered alongside the assessment of planning merits. There is an additional charge of £250 for this service. This can be as part of any agreed further pre-application submissions with the Planning Authority (recommended) or independently/ direct with the SAB. You are advised, however, that failing to engage in joint pre-application discussions has the potential to lead to delays and, most notably, the potential need to obtain further planning permission should any agreed SuDS design not be compliant with any relevant planning permission. Further details are available at [www.npt.gov.uk/sab](http://www.npt.gov.uk/sab)

The decision to recommend planning permission has been taken in accordance with Section 38 of The Planning and Compulsory Purchase Act 2004, which requires that, in determining a planning application the determination must be in accordance with the Development Plan unless material considerations indicate otherwise. The Development Plan comprises Future Wales - the National Plan 2040 and the Neath Port Talbot Local Development Plan (2011-2026) adopted January 2016.

It is considered that the proposal represents an appropriate form of development and would not have an unacceptable impact on visual amenity, residential amenity or highway safety and pedestrian safety. Accordingly, the proposed development is in accordance with Policies SP3, SP7, SP20, SP21, SC1, TR2 and BE1 of the Neath Port Talbot Local Development Plan.

It is further considered that the decision complies with Future Wales - the National Plan 2040 and the Council's well-being objectives and the sustainable development principle in accordance with the requirements of the Well-being of Future Generations (Wales) Act 2015.

Signed: 

**Ceri Morris – Head of Planning & Public Protection**

**Date: 15 September 2022**

### **IMPORTANT:**

(1) Please note that for all decisions issued after 16th March 2016 for outline or full planning permission, a revised decision notice will be issued whenever a subsequent consent is given, for example providing details of any Reserved Matters approvals (outline applications only) and/or approval of conditions (including on Reserved Matters). This will ensure that the current status of the conditions applied to a consent is clear. Accordingly you are advised to visit [www.npt.gov.uk/planning](http://www.npt.gov.uk/planning) to view the application documentation to see if this is the current version, or whether it has been superseded by a more up-to-date revision of this Decision Notice. For Reserved Matters approvals the revised Decision Notice will only be shown under the Outline approval.

(2) Please note that this consent is specific to the plans and particulars approved as part of the application. Any departure from the approved plans will constitute unauthorised development and may be liable to enforcement action. You (or any subsequent developer) should advise the Council of any actual or proposed variations from the approved plans immediately so that you can be advised how to best resolve the matter.

(3) In addition, any conditions that the Council has imposed on this consent will be listed above and should be read carefully. It is your (or any subsequent developers) responsibility to ensure that the terms of all conditions are met in full at the appropriate time (as outlined in the specific condition). Please note that any works carried out without compliance with the conditions attached to this approval will be entirely at the risk of the persons involved and may result in formal action being taken by the Local Planning Authority.

(4) The developer should have regard to Sections 4, 7, 8 and 8A of the Chronically Sick and Disabled Persons Act 1970 and to the British Standards Institution's Code of Practice for "Design of buildings and their approaches to meet the needs of disabled people" (BS 8300:2009+A1:2010).

(5) From 1st October 2012 it has been an offence to install a public sewer or lateral drain without having an adoption agreement in place. From the 1st October 2012 the vast majority of all existing private sewers and lateral drains which link with the public sewer network were transferred to Welsh Water. For further details on how this will affect your development please contact: Welsh Water Developer Services, PO Box 3146, Cardiff, CF30 0EH. Telephone No. 0800 9172652 or email: [developer.services@dwrcymru.com](mailto:developer.services@dwrcymru.com).

## IMPORTANT INFORMATION: TOWN AND COUNTRY PLANNING ACT 1990

The applicant's attention is drawn to the notes below.

- (1) If the applicant is aggrieved by the decision of the Local Planning Authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Welsh Government under Section 78 of the Town and Country Planning Act 1990 (as amended).
- (2) You can also appeal to the Welsh Government against a decision to refuse permission or grant subject to conditions in respect of applications made for :- Listed Building or Conservation Area Consent; Consent under a Tree Preservation Order; Advertisement Consent.
- (3) You can also appeal If your application for a Certificate of Lawful Existing Use or Lawful Proposed Use is partly or wholly refused or is granted differently from what you asked for (under Section 195/196) of the Town and Country Planning Act 1990 (as amended).
- (4) If you are aggrieved of the LPAs decision, the following deadlines apply for appeals to be submitted to the Welsh Government (from the date of the Council's decision):-

|                                                                                                           |                 |
|-----------------------------------------------------------------------------------------------------------|-----------------|
| (1) Planning Permission (with the exception of Minor Commercial and Householder applications – see below) | Within 6 Months |
| (2) Householder Appeal <small>see endnote i</small>                                                       | Within 12 weeks |
| (3) Minor Commercial Appeal <small>see endnote i</small>                                                  | Within 12 weeks |
| (4) Listed Building or Conservation Area Consent appeals                                                  | Within 6 months |
| (5) Tree Preservation Order (TPO) Consent                                                                 | Within 28 days  |
| (6) Advertisement Consent                                                                                 | Within 8 weeks  |
| (7) Certificate of Lawfulness of Existing (Section 191) or Proposed (Section 192) Use or Development      | Within 6 months |
| (8) Hazardous Substances Consent                                                                          | Within 6 months |
- (5) Appeals must be made on a form which is obtainable from the Planning Inspectorate, Crown Buildings, Cathays Park, Cardiff, CF10 3NQ – Tel 0303 444 5940, or online at [www.planningportal.gov.uk/pcs](http://www.planningportal.gov.uk/pcs) .
- (6) The Welsh Government has power to allow a longer period for the giving of notice of appeal but they will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- (7) The Welsh Government is not required to entertain an appeal if it appears to them that permission for the proposed development could not have been granted having regard to the statutory requirements to the provisions of the development order, and to any directions given under the Order. They do not in practice refuse to entertain appeals solely because the decision of the Local Planning Authority was based on a direction given by them.
- (8) If permission to develop land is refused or granted subject to conditions, whether by the Local Planning Authority or by the Welsh Government, and the owner of the land claims that the land has become incapable of reasonable beneficial use in its existing state and cannot be rendered capable of reasonable beneficial use by the carrying out of any development which has been or would be permitted, he may serve on the County Borough Council, in which the land is situated, as the case may be, a **purchase notice** requiring that Council purchase his interest in the land in

accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

#### Making an Appeal

- (9) Please note that for all applications received by the LPA after 5<sup>th</sup> May 2017, it is now a requirement that any appeal made to the Planning Inspectorate (other than Householder and Minor Commercial Appeals, and appeals against refusal to grant advertisement consent) must be accompanied by all the information and evidence you intend to rely upon (a **“full statement of case”**). You must also send a copy of the notice of appeal and full statement of case to the LPA.
- (10) In addition, for ‘planning appeals’ an amendment to an application following notice of appeal may only be made to correct an error.
- (11) Additional details and information on making an appeal to the Welsh Government is available from the Planning Inspectorate at the above address and website. The relevant documents are entitled “making your planning appeal” and “planning appeals Public Local Inquiries”.
- (12) Further correspondence regarding this application should bear the reference number quoted on the top of the decision notice.

---

THIS NOTICE RELATES ONLY TO A PLANNING DECISION AND DOES NOT RELATE TO OTHER LEGISLATION INCLUDING ANY LEGISLATION UNDER:

- BUILDING REGULATIONS – Please contact [buildingcontrol@npt.gov.uk](mailto:buildingcontrol@npt.gov.uk) or 01639 686820 to discuss all aspects of the service that is offered by Building Control
- HIGHWAY LEGISLATION

IF PLANNING CONSENT HAS BEEN GRANTED IT IS ADVISABLE TO ESTABLISH WHETHER ANY OTHER FORM OF CONSENT IS REQUIRED AND TO OBTAIN SUCH CONSENT BEFORE COMMENCING DEVELOPMENT

---

<sup>i</sup> Please see the [Town and Country Planning \(Referred Applications and Appeals Procedure\) \(Wales\) Regulations 2017](#) for appeal procedures and for full definitions of:

- *“householder application”* (essentially an application for the enlargement, improvement or other alteration of a dwellinghouse, or development within the curtilage of such a dwellinghouse, or change of use to enlarge the curtilage of a dwelling house)
- *“householder appeal”* means an appeal in relation to a householder application, but excludes an appeal against conditions on the grant of planning permission; or an appeal which is accompanied by an enforcement or listed building consent appeal.
- *“minor commercial application”* (essentially relates to existing buildings of no more than 250 square metres gross external floor space at ground floor level, currently in use for any of the purposes set out in Schedule 1A to The Town and Country Planning (Development Management Procedure) (Wales) (Amendment) Order 2015 which is an application for change of use from Class A1 to A2 or A3; or Class A2 to A3); or the carrying out of building or other operations to a shop front.
- *“minor commercial appeal”* means an appeal in relation to a minor commercial application but excludes an appeal against conditions on the grant of planning permission; or an appeal which is accompanied by an enforcement or listed building consent appeal.
