The historical maps shown were reprojected at the scale adopted for England and Wales, the 1:2,500 scale was adopted for Scotland, and the 1:50,000 scale was used to cover the whole of what were called the Channel Islands. The published date given by the Ordnance Survey was the latest surveyed date. Before 1938, all OS maps were projected using the Transverse Mercator Projection, with independent surveying methods giving rise to significant inaccuracies.

The figure shows a 3D coordinate system with three axes labeled x, y, and z. A grid of points is plotted, labeled A1 through A18. The points are arranged in a 3x3x2 grid. The x-axis ranges from 0 to 3, the y-axis from 0 to 3, and the z-axis from 0 to 2. A specific point, A12, is highlighted with a red circle. A red line connects A12 to A11, which is the point directly below it on the same x and y coordinates but at a lower z-value.

A detailed street map of a residential area in Glasgow, Scotland. The map shows a grid of streets including Commercial Road, Woodfield Street, Peabody Street, and Margaret Road. A purple circle is drawn around a central area, and a pink rectangle highlights a specific block within this area. The map includes various landmarks such as a Fire Station, a Police Station, and a Youth Centre. The map is overlaid with a black grid.
