Dear Kevin

RE: County Flats Planning Conditions

Condition 19 – Verification Report

This letter confirms that we have been in frequent contact with the site as the works progressed. The geotechnical investigation report prepared by Integral Geotechnique suggested a small risk of asbestos containing materials and hydrocarbon contamination.

We have not been made aware of the discovery of any further contaminants so to the best of our knowledge no contamination was discovered in any of the disturbed soils during the works.

Yours faithfully

Chris Usher BSc(Hons) CEng FStructE MICE AaPS
