

Neath Port Talbot C.B.C.

Gnoll Country Park

Proposed Material Plans

- All uprights are anodised aluminum
- All metalwork is RAL6005 Dark Green
- Green HPL Panels are RAL6005
- Wooden effect HPL Panels are RAL8024-8025

Please note the HPL Panels will be manufactured as close as possible to the RAL numbers

The largest Playzone unit in our range, the Woodland Tower raises to 8m high. As the same suggests the PZU918W has a woodland theme with HPL features including owls, leaves, branches, flowers and a tree house, complete with thatch themed roof, a feature window and branches growing through.

Woodland is an imposing structure with platforms from 1.5m to 3.9m, perfectly suited to a destination play area.

A ground level 'Forest Hut' with Feature Door, Curved seat, Animal Footprint Tracker Panel and an Owl Talker' to communicate across the unit with social and fantasy and object play opportunities for all ages and abilities.

Woodland has the play space to accommodate up to 38 users.
