ROLLER SHUTTER DOORS

The 7500 Traditional Tube Motor Electric Operated is the classic steel roller shutter and is ideal for industrial applications where a higher security is required.

Applications: Warehouse / Factories / Workshop & Stores / Supermarkets / Distribution Centres / Airports / Laboratories / Pharmaceutical Factories / Agricultural Buildings / Industrial & Commercial Units

Product Code: 7500 Traditional Tube Motor
Manufacture: Arrow Security Shutters

Colour : Galvanized Steel

Brett Martin 170mm Deepstyle Industrial Gutter x 4m length available in Black or Grey.

DEEPSTYLE 170
170mm high performance industrial rainwater system with a greater drainage capacity
This large scale system enables larger roofs to be drained more efficiently and effectively
All fittings feature factory fitted CLIP & SEAL technology for ease of installation and completely watertight joints
The system requires fewer downpipes and drainage connections
High gloss UV protected gutter and downpipes which look better and last longer
DEEPSTYLE 170 FOR LARGER ROOFS
Commercial: schools, hospitals, offices
Industrial: factories, warehouses
Agricultural: barns, cow sheds, outbuildings
Residential: apartments, barn conversions, large period properties and residences
Manufacturer: Brett Martin
Product Code: BR092

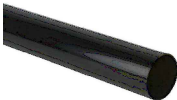

Brett-Martin Downpipe Rainwater range featuring quality PVCu systems in a gloss finish which is suitable for larger commercial and industrial buildings.

Quick and easy to install.
UV Stabilised, durable and corrosion resistant.
Lightweight, robust materials.
Outlets and unions feature external fixing wings for power tool access.
Integral flexible clips on all fittings for easy connection.

Product Code: BRETT-MARTIN-BR201-BR203

Brand: Brett Martin

Colour: Black
