8. Trees - Reasons For Works

This section only needs to be completed if you are seeking consent for proposed works to trees under a Tree Preservation Order (TPO)

Please state the reasons for carrying out the proposed works on the tree(s):

In Woodland 3, Rhododendron (INNS) has been left to grow unmanaged and is encroaching onto footpaths and tracks for access. In woodland 3 there are substantial trees which would benefit from the control of Rhododendron in order for them to regenerate. The reduction of Rhododendron will help increase biodiversity in the area by allowing space for native species to grow with improved light access and quality of soil as well as improved access for maintenance of the farm for drainage, surveying, etc. If left unmanaged the Rhododendron will spread.

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the documents specified.

Health or safety of the tree(s) - e.g. it is diseased, fears that it might break or fall:
