

In the Matter of an Application for a Lawful Development
Certificate for the Non-Compliance with an Agricultural
Occupancy Condition – Pant y Gwanyd Farm, Ystalyfera

Statement of Claire Harris

1. I am the daughter of Roy Harris. In 1998 when my parents bought the farm I was in university and since graduating I have lived and worked in England. I have, nevertheless, kept in constant touch with my parents and I am a regular visitor to the farm on average about 4 times every year.
2. I can confirm that my father has never actively farmed the land. I was aware that over the years he kept very small numbers of sheep and angora goats but these were just pets. He also kept rare breed chickens at times but did not sell the eggs. I know also that the grazing fields have been rented to local farmers, including Mr Peacey, the previous owner of the farm.
