2 The applicant is advised that should there be any alteration to the scale of the business or the type of food prepared and served at the premises then further details of a suitable extraction system may be required to be submitted to and approved by the Local Planning Authority. These details hereby approved are only considered to be appropriate based on the information provided and as such an increase in quantity or type of food cooked may require a new submission under this condition, as it may result in amenity issues. Should you have any queries please contact the Environmental Health Team for advice on ehd@npt.gov.uk

3 The applicant may need to apply to Dwr Cymru / Welsh Water for any connection to the public sewer under S106 of the Water industry Act 1991. If the connection to the public sewer network is either via a lateral drain (i.e. a drain which extends beyond the

connecting property boundary) or via a new sewer (i.e. serves more than one property), it is now a mandatory requirement to first enter into a Section 104 Adoption Agreement (Water Industry Act 1991). The design of the sewers and lateral drains must also conform to the Welsh Ministers Standards for Gravity Foul Sewers and Lateral Drains, and conform with the publication "Sewers for Adoption"- 7th Edition. Further information can be obtained via the Developer Services pages of www.dwrcymru.com The applicant is also advised that some public sewers and lateral drains may not be recorded on Welsh Water maps of public sewers because they were originally privately owned and were transferred into public ownership by nature of the Water Industry (Schemes for Adoption of Private Sewers) Regulations 2011. The presence of such assets may affect the proposal. In order to assist Welsh Water in dealing with the proposal the applicant may contact Dwr Cymru Welsh Water to establish the location and status of the apparatus. Under the Water Industry Act 1991 Dwr Cymru Welsh Water has rights of access to its apparatus at all times.

4 The development site is located within a Coal Authority Coal Mining Reporting Area which could be a potential source of ground gas, and also an area potentially affected by contamination. Although the risk assessment processes for these are slightly different they have similar themes and may form part of the same report, if produced by someone suitably qualified and competent in both areas. Evidence of their competence will need to be detailed within the report.

5 The proposed development lies within a coal mining area which may contain unrecorded coal mining related hazards. If any coal mining feature is encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848. Further information is also available on the Coal Authority website at: www.gov.uk/government/organisations/the-coal-authority

The decision to recommend issuing a planning permission has been taken in accordance with Section 38(6) of The Planning and Compulsory Purchase Act 2004, which requires that, in determining a planning application the determination must be in accordance with the Development Plan unless material considerations indicate otherwise. The Development Plan comprises the Neath Port Talbot Local Development Plan (2011-2026) adopted January 2016.

It is considered that the proposal represents an appropriate form of development that would have no unacceptable impact on the function of the industrial estate, character and appearance of the area, amenity, local environment or highway safety and the free flow of traffic. Accordingly, the proposed development is in accordance with Policies SP1; SP2; SP3; SP5; SP12; SP16; SP19; SP20; SC1; EN2; EN3; I1; TR2; and BE1 of the Neath Port Talbot Local Development Plan.

It is further considered that the decision complies with Future Wales - the National Plan 2040 and the Council's well-being objectives and the sustainable development principle in accordance with the requirements of the Well-being of Future Generations (Wales) Act 2015.

Ceri Morris – Head of Planning & Public Protection

IMPORTANT:

(1) Please note that for all decisions issued after 16th March 2016 for outline or full planning permission, a revised decision notice will be issued whenever a subsequent consent is given, for example providing details of any Reserved Matters approvals (outline applications only) and/or approval of conditions (including on Reserved Matters). This will ensure that the current status of the conditions applied to a consent is clear. Accordingly you are advised to visit www.npt.gov.uk/planning to view the application documentation to see if this is the current version, or whether it has been superseded by a more up-to-date revision of this Decision Notice. For Reserved Matters approvals the revised Decision Notice will only be shown under the Outline approval.

(2) Please note that this consent is specific to the plans and particulars approved as part of the application. Any departure from the approved plans will constitute unauthorised development and may be liable to enforcement action. You (or any subsequent developer) should advise the Council of any actual or proposed variations from the approved plans immediately so that you can be advised how to best resolve the matter.

(3) In addition, any conditions that the Council has imposed on this consent will be listed above and should be read carefully. It is your (or any subsequent developers) responsibility to ensure that the terms of all conditions are met in full at the appropriate time (as outlined in the specific condition). Please note that any works carried out without compliance with the conditions attached to this approval will be entirely at the risk of the persons involved and may result in formal action being taken by the Local Planning Authority.

(4) The developer should have regard to Sections 4, 7, 8 and 8A of the Chronically Sick and Disabled Persons Act 1970 and to the British Standards Institution's Code of Practice for "Design of buildings and their approaches to meet the needs of disabled people" (BS 8300:2009+A1:2010).

(5) From 1st October 2012 it has been an offence to install a public sewer or lateral drain without having an adoption agreement in place. From the 1st October 2012 the vast majority of all existing private sewers and lateral drains which link with the public sewer network were transferred to Welsh Water. For further details on how this will affect your development please contact: Welsh Water Developer Services, PO Box 3146, Cardiff, CF30 0EH. Telephone No. 0800 9172652 or email: .

(6) Welsh Water Dwr Cymru advise that the planning permission hereby granted does not extend any rights to carry out any works to the public sewerage or water supply systems without first having obtained the necessary permissions required by the Water Industry Act 1991.

Please note, in accordance with Construction and Design Management (CDM) Regulations, it is the applicant's responsibility to ensure that any proposed works within their curtilage do not conflict with any underground services and is recommended they review their land registry title deeds for any legal covenants. For Sewers or Watermains that may be present and affected by your proposals, you are advised to contact Dwr Cymru Welsh Water who will be able to explain whether your proposed works will be acceptable as well as any consent required. Prior to commencing works, it is also recommend the applicant review the information and guidance on Building Over Sewers

available on Welsh Water's website at

The applicant is also advised that some public sewers and lateral drains may not be recorded on Welsh Water maps of public sewers because they were originally privately owned and were transferred into public ownership by nature of the Water Industry (Schemes for Adoption of Private Sewers) Regulations 2011. The presence of such assets may affect the proposal. In order to assist us in dealing with the proposal the applicant may contact Dwr Cymru Welsh Water to establish the location and status of the apparatus. Under the Water Industry Act 1991 Dwr Cymru Welsh Water has rights of access to its apparatus at all times.
