S1-BH103 1.20 m to 2.20 m

The image shows a geological core sample, labeled 'G22069', with a data table and a scale bar. The core is a long, cylindrical sample of dark, silty material, showing some internal structure and a small, lighter-colored, rounded object near the bottom right. The core is mounted on a white background. Above the core is a data table with the following information:

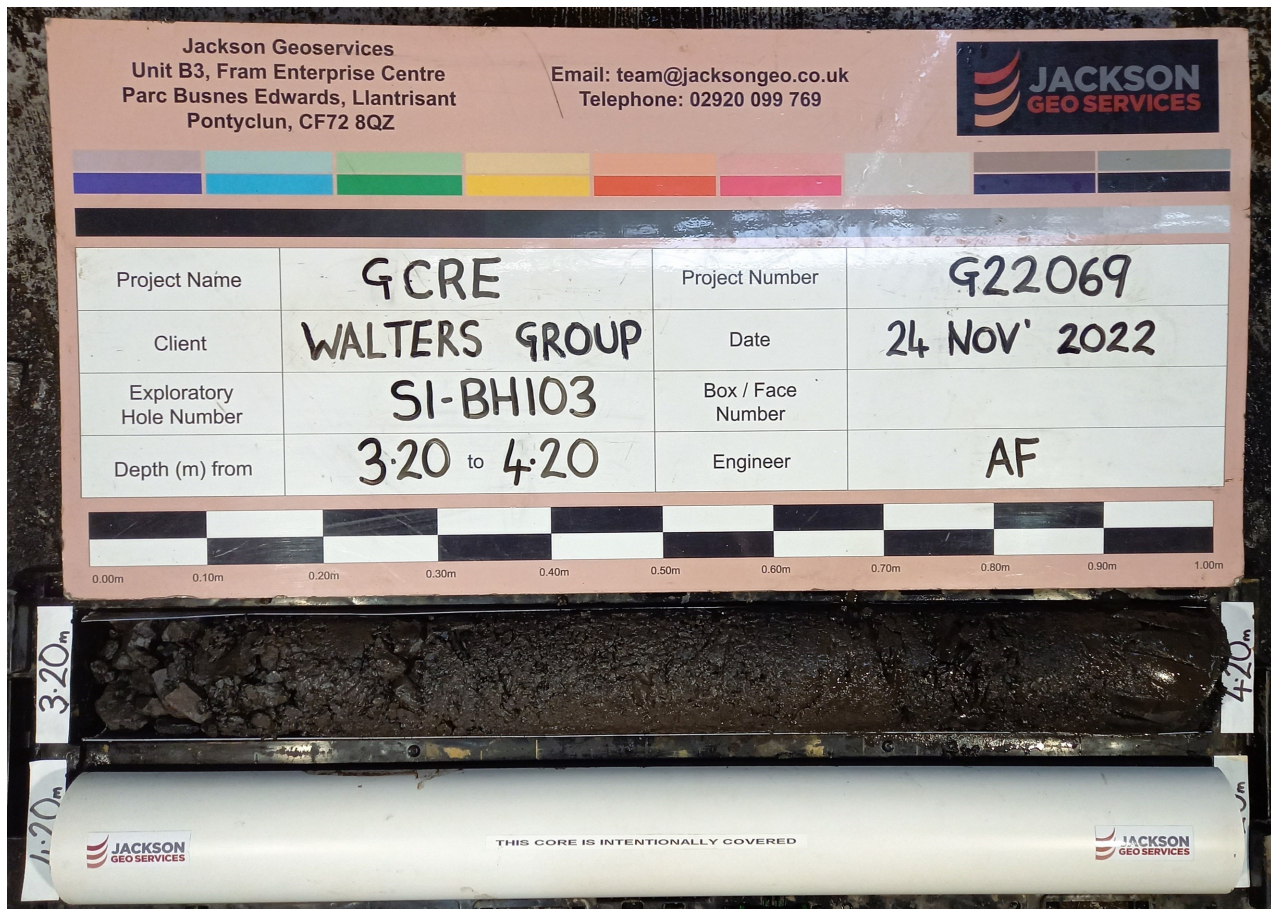

Project Name		Project Number	
GCRE		G22069	
Client		Date	
WALTERS GROUP		24 Nov' 2022	
Exploratory Hole Number		Box / Face Number	
SI-BH103			
Depth (m) from		Engineer	
2.20 to 3.20		AF	

Below the table is a scale bar with markings from 0.00m to 1.00m in 0.10m increments. The core is labeled 'G22069' at the top right. The core is covered with a white material, and the text 'THIS CORE IS INTENTIONALLY COVERED' is printed on the white material. The Jackson Geo Services logo is visible on the left and right sides of the white material. The core is labeled '2.20m' at the top left and '3.20m' at the bottom right.
