Drafted By : Byron Temblett

Tel : As above

All waste will be segregated/sorted for removal from site for recycling/disposal in accordance with the waste duty of care in section 34 of the Environmental Protection Act 1990 and the Environmental Protection (duty of care) Regulations 1991. All skips/bins will be sited on a well compacted level surface and have clear signage to inform operatives of their contents.

Description of waste	Estimated Qty	Means of disposal/Recycling
Waste stone, bricks and granular material	150 t	To be placed in a neat pile on site for future use.
Waste timber Products	10 t	To be placed in its own skip and recycled and an appropriately licensed facility.
General waste	20 t	To be placed in its own skip and recycled and an appropriately licensed facility.

N.B. This plan will be updated as the work progresses to record all waste, how it was disposed/recycled, when it was removed from site and where it was disposed/recycled.

Client : Lee Davies
