MYNYDD FFORCH DWM

FIGURE 7.2

Zone of Theoretical Visibility for Proposed Layout with Screening Effect of Woodland and Settlement

KEY

- Proposed Mynydd Fforch Dwm Wind Turbines
- Distance radii from outermost turbine: 5, 10, 15, 20km
- Viewpoints
- Local Authority Boundary

National Landscape Designations

- Brecon Beacons National Park
- Parks and Gardens-Wal

Local Landscape Designations

- Neath Port Talbot Special Landscape Areas
- Bridgend Special Landscape Areas
- Swansea Special Landscape Areas
- Gower AONB

Zone of Theoretical Visibility to Blade Tip

- 1 - 2 turbines may be visible
- 3 - 4 turbines may be visible
- 5 - 6 turbines may be visible

FIGURE DATA:
This figure has been based on the following data:

Layout file: D006-obvs-turbines-BT-T5-5km;
D006-obvs-turbines-BT-T50-35km
Terrain data: T5-DSM-5km-patched.asc; T50-DSM.asc
Viewer's eye height: 2m above ground level
Calculation grid size: 5m (to 5km from turbines) / 50m (beyond)

NOTES:
This drawing is based upon computer generated Zone of Theoretical Visibility (ZTV) studies produced using the Viewshed routine in the Visibility Analysis plugin for QGIS.

The areas shown are the maximum theoretical visibility, taking into account topography, principal woodlands and buildings.

A digital surface model (DSM) has been derived from OS Terrain 5/50 height data with the locations of woodland and buildings taken from the OS Open Map Local dataset. Buildings have been modelled with an assumed height of 7.5m and woodland an assumed height of 15m, representing a conservative estimate of average heights within the study area.

The model does not take into account some localised features such as small copses, hedgerows or individual trees and therefore still gives an exaggerated impression of the extent of visibility. The actual extent of visibility on the ground will be less than that suggested by this plan.

The ZTV includes an adjustment that allows for Earth's curvature and light refraction. It is based on a derived DSM and has a 5m² / 50m² resolution.

Projected Coordinate System: British National Grid
