Description of Proposed Works

Please describe the proposed works

The proposal is in relation to a detached freehold house with existing vehicle access and dropped kerbs onto a Classified Road (C Class).

Currently the vehicle access is not wide enough for the ease of movement of household vehicles off and onto the property, as the entrance is not wide enough and two of the four household vehicles are usually parked on the highway in front of the property. It is therefore proposed to increase the size of the existing access by removing part of the existing boundary wall and increasing the number of dropped kerbs

There is no change to the existing site gradients and elevations so therefore a block plan is not required as same as existing.
