

Demolition and construction method statement Appendix 1 (UPDATES AND SUPERSEDES ORIGINAL SUBMISSION)

Traffic Management

- Delivery and removals will not be carried out between 8:00-9:30 and 14:30-16:00.
- The route for vehicles has been stated, please see attached plan (drawing sp1) that demonstrates this
- Location of parking of site operatives has been stated as available on site in the method statement – please also see attached site layout plan (drawing SP1) showing the site parking location
- Please see note on attached site plan confirming all vehicles will leave the site in a forward gear, and any reversing is to be completed within the site boundary only.
- Signage plans warning pedestrians and speed restrictions are shown on the attached site plan

Demo methods

- All materials to be stored within curtilage of site, as shown on attached site layout plan.

Drainage

- Water would be managed on site to ensure no spilling onto adjoining land, or the canal behind the site. Please see attached site plan for details. This will also be required in regards to the dampening down process.

Responsible persons

- The names and numbers are provided within the H&S plan, a signed copy of the Method Statement and Health and Safety plan are attached.
