DATE REGISTERED: 9 May 2022

APPLICATION NO: P2022/0397

LOCATION: Land At Edwards Works, Llandarcy, SA10 6JY

PROPOSAL: Section 73 application to remove Condition 10 (Structural Integrity Scheme) of planning permission ref P2021/1019 for proposed Asphalt Plant

NEATH PORT TALBOT COUNTY BOROUGH COUNCIL as the Local Planning Authority in pursuance of its power under the above mentioned Act and Order hereby **GRANTS PLANNING PERMISSION** for the development as described above to be carried out in accordance with the application and the plans submitted therewith, subject to compliance with the following conditions:

THIS IS DECISION NOTICE REVISION 3 ISSUED ON THE 19/10/2023

Conditions:-

Time Limit Conditions

- 1 The development shall begin no later than five years from the date of this decision.

Reason:

To comply with the requirements of Section 91 of the Town and Country Planning Act 1990.

List of Approved Plans

- 2 The development shall be carried out in accordance with the following approved plans:

Plan View and Elevation Drawing 14-3-22
Foundation detail GPIC 1312-00
General Arrangement 21-3-22
Site Development Drawing 14-3-22
Air Quality Assessment Sept 2021
Biodiversity Plan 3-12-21
Design and Access Statement Sept 2021
Flood Consequences Assessment Final Report Jan 2021
Landscape and Visual Appraisal - March 2022
Landscape and Visual Appendices March 2021
Preliminary Ecological Appraisal 7-4-21
Llandarcy Outline Drainage Strategy June 2021
Noise Impact Assessment 11-6-21
Planning Statement Rev A September 2021
Transport Statement Rev A September 2021
Additional Information Rec 14-12-21

Reason:
In the interests of clarity

Pre-Commencement Conditions

- 3 No development shall commence on site, including site clearance, until a Construction Environmental Management Plan (CEMP) has been submitted to and approved in writing by the Local Planning Authority. The CEMP shall be made with reference to the requirements of British Standard BS5228-1:2009 - "Code of practice for noise and vibration control on construction and open sites". The CEMP should include the following information: -
 - a) Construction methods: details of the extent and phasing of development; details of construction materials or techniques to be used; details for the storage and management of plant and materials used in constructing the development and details, waste and contaminated land.
 - b) General Site Management: details of the construction programme including timetable; details of site clearance; construction drainage, site setup plan detailing sensitive receptors, buffer zones and relevant protection measure maintenance of security hoarding including decorative displays and facilities for public viewing; details of complaint investigation procedures.
 - c) Control of Nuisances: Identification of the significant construction and demolition noise & vibration sources; details of physical and operational management controls necessary to mitigate noise & vibration emissions; and measures to control light spill.
 - d) Traffic Management: details of site deliveries; details for the loading and unloading of plant and materials; details of wheel wash facilities; details for the parking of vehicles of site operatives and visitors; The erection and maintenance of security hoarding; A scheme for recycling/disposing of waste resulting from demolition and construction works and a scoping route for all deliveries to and from the development.

e) Hours of working on site, including specified hours for deliveries; details of restrictions to be applied during construction and demolition works (including timing, duration and frequency of works) to prevent noise or nuisance amenity issues to surrounding properties.

f) Biodiversity Management: invasive species management : tree and hedgerow protection , invasive species management, species/habitas protection and mitigation measures.

g) Soil management: details and methods of topsoil stripping, storage and protection of seed bank for re-use on the green roof and planting bunds;

h) CEMP masterplan: detailing the development, location of landscape and environmental resources, design proposals and objectives for integration and mitigation.

i)Resource Management: fuel and chemical storage, waste management, water consumption and energy consumption.

j) Pollution Prevention: demonstrate compliance with relevant Guidelines for Pollution Prevention, incident response plan and site drainage plan.

k) Responsible Persons: details of the persons and bodies responsible for activities associated with the CEMP and emergency contact details

The CEMP shall be implemented as approved throughout the site preparation and construction phases of the development.

Reason:

In order to ensure necessary management measures are agreed and implemented to protect local amenity, especially for people living and/or working nearby, highway safety during construction, biodiversity, controlled waters, human health and to accord with Policies BE1, EN7, EN8 and TR2 of the Local Development Plan (2011-2026).

The above conditon was agreed under planning application P2023/0403 approved on 21.08.2023

- 4 Notwithstanding the submitted information, no development shall commence until, a Waste Management Plan for the control, management, storage and disposal of any waste material generated during the demolition and construction of the development shall be submitted to and approved in writing by the Local Planning Authority. All waste shall be treated in accordance with the agreed waste plan. The plan shall be implemented as approved.

Reason:

To ensure the appropriate disposal of any waste arising from the development in terms of protection of the environment and to ensure the sustainability principles are adopted during development and complies with Policy W3 of the Neath Port Talbot Local Development Plan (2011-2026).

The above conditon was agreed under planning application P2023/0661 approved on 19/10/2023

- 5 No Development shall commence until a scheme which shall include the following components to deal with the risks associated with contamination of the site is undertaken by competent persons in accordance with the following document:- Development of Land Affected by Contamination: A Guide for Developers (WLGA & EAW, 2012) and shall each be submitted to and approved, in writing, by the Local Planning Authority:

1. A preliminary risk assessment of the application site
 - a) all previous uses
 - b) potential contaminants associated with those uses
 - c) a conceptual model of the site indicating sources, pathways and receptors
 - d) potentially unacceptable risks arising from contamination at the site.
2. A site investigation scheme, based on (1) to provide information for a detailed assessment of the risk to all receptors that may be affected, including those off site.
3. The site investigation results and the detailed risk assessment (2) and, based on these, an options appraisal and remediation strategy giving full details of the remediation measures required and how they are to be undertaken.
4. A verification plan providing details of the data that will be collected in order to demonstrate that the works set out in (3) are complete and identifying any requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action.

Any changes to these components require the express consent of the Local Planning Authority. The scheme shall be implemented as approved.

Reason:

To ensure that information provided for the assessment of the risks from land contamination to the future users of the land, neighbouring land, controlled waters, property and ecological systems is sufficient to enable a proper assessment, and to ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors. Natural Resources Wales considers that the controlled waters at this site are of high environmental sensitivity due to proximity to surface water and being situated on a Secondary A aquifer. Contamination is known/strongly suspected at site due to historical contaminative uses, and to ensure compliance with Policies SP16 and EN8 of the Neath Port Talbot Local Development Plan (2011-2026).

- 6 No development shall commence until a verification report demonstrating completion of the works set out in the approved remediation strategy and the effectiveness of the remediation is submitted to and approved, in writing, by the Local Planning Authority. The report shall include results of sampling and monitoring carried out in accordance with the approved verification plan to demonstrate that the site remediation criteria have been met. It shall also include any plan (a "long-term monitoring and maintenance plan") for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action, as identified in the verification plan, and for the reporting of this to the Local Planning Authority.

Reason:

To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors, and to demonstrate that the remediation criteria relating to controlled waters have been met, and (if necessary) to secure longer-term monitoring of groundwater quality. This will ensure that there are no longer remaining unacceptable risks to controlled waters following remediation of the site, and to ensure compliance with Policies SP16 and EN8 of the Neath Port Talbot Local Development Plan (2011-2026).

- 7 No development shall commence until details of piling or any other foundation designs using penetrative methods sufficient to demonstrate that there is no unacceptable risk to groundwater have been submitted to and approved in writing by the Local Planning Authority. The piling/foundation designs shall be implemented in accordance with the approved details.

Reason:

Piling/foundation details should be submitted to ensure there is no unacceptable risk to groundwater during construction and methods/design are agreed prior to the commencement of development or phase of development and to ensure compliance with Policies SP16, EN8 and BE1 of the Neath Port Talbot Local Development Plan (2011-2026).

- 8 Prior to the operation of the development, a long term monitoring plan for, water quality, land contamination shall be submitted and approved in writing by the Local Planning Authority. The long term monitoring plan should include:

- a) Details of the methods and triggers for action to be undertaken
- b) Timescales for the long term monitoring and curtailment mechanisms e.g. a scheme of monitoring for 3 years unless the monitoring reports indicate that subsequent monitoring is or is not required.
- c) Timescales for submission of monitoring reports to the LPA e.g. annually
- d) Details of any necessary contingency and remedial actions and timescales for actions
- e) Details confirming that the contingency and remedial actions have been carried out. The monitoring plan shall be carried out in accordance with the approved details, within the agreed timescales.

Reason

A land contamination long term monitoring plan should be submitted prior to operation, to ensure necessary monitoring measures are approved to manage any potential adverse impacts as a result of development on water quality and to ensure compliance with Policies SP16 and EN8 of the Neath Port Talbot Local Development Plan (2011-2026).

- 9 No development shall take place until the applicant, or their agents or successors in title, has secured agreement for a written scheme of historic environment mitigation which has been submitted by the developer / applicant and approved in writing by the

Local Planning Authority. Thereafter, the programme of work must be fully carried out in accordance with the requirements and standards of the written scheme.

Reason:

To identify and record any features of archaeological interest discovered during the works, in order to mitigate the impact of the works on the archaeological resource as required by Planning Policy Wales and Policy SP21 of the Neath Port Talbot Local Development Plan.

The above condition was partially agreed under planning application P2023/0403 approved on 21.08.2023 (the condition cannot be fully discharged until the final report is submitted)

- 10 No development shall commence until details of the finished floor levels have been submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details.

Reason

In the interest of the amenities of the area and to ensure the development complies with Policy BE1 of the Neath Port Talbot Local Development Plan.

The above condition was agreed under planning application P2023/0403 approved on 21.08.2023

Action Conditions

- 11 Prior to the first beneficial use of the development hereby approved, a Flood Warning Scheme shall have been submitted to and approved in writing by the Local Planning Authority. The scheme shall provide the following:
- a) Details of Flood emergency plan/procedure during an extreme flood event
 - b) Details of escape/evacuation routes
 - c) Details of flood warning signs and their locations within the building and car park
 - d) Confirmation that the building is registered with NRW flood warning service. The approved scheme shall be fully implemented on site prior to the first beneficial use of the building and retained thereafter.

Reason:

In the interest of the staff and users of the site as it is partly located within a Flood Zone 3 and to comply with the requirements of Policy BE1 of the Neath Port Talbot Local Development Plan (2011-2026).

- 12 In the event that contamination is found at any time when carrying out the approved development that was not previously identified, work on site shall cease immediately and shall be reported in writing to the Local Planning Authority. A Desk Study, Site Investigation, Risk Assessment and where necessary a Remediation Strategy must be undertaken in accordance with the following document:- Development of Land Affected by Contamination: A Guide for Developers (WLGA & EAW, 2012). This document shall be submitted to and agreed in writing with the Local Planning Authority. Prior to occupation of the development, a verification report which demonstrates the effectiveness of the agreed remediation, shall be submitted to and agreed in writing with the Local Planning Authority.

Reason

To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property

and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other off site receptors. Given the complexity of the site it is considered possible that there may be unidentified areas of contamination at the site that could pose a risk to controlled waters if they are not remediated, and to ensure compliance with Policies SP16 and EN8 of the Neath Port Talbot Local Development Plan (2011-2026).

- 13 Prior to the installation of any permanent external lighting on the site, a detailed lighting scheme for the site shall be submitted to and approved in writing by the Local Planning Authority detailing the location of all proposed lights, the specification, intensity of illumination, predicted lighting contours (lux plots), together with proposed hours of operation and any mitigation measures required (including measures to reduce as far as practicable light spillage onto the adjoining properties and incorporate best practice guidance to ensure the retention of dark corridors for the movement of wildlife with no direct lighting of vegetation). The approved lighting shall be implemented on site in accordance with the approved scheme only, and retained as such thereafter.

Reason:

In the interest of biodiversity and to prevent any unacceptable light spillage, and to ensure compliance with Policies SP15, SP16, EN8 and BE1 of the Neath Port Talbot Local Development Plan(2011-2026).

- 14 The parking spaces, turning facilities and loading/unloading areas as shown on the approved plans shall be provided prior to the first beneficial use of the development hereby permitted commencing, and shall thereafter be used solely for the benefit of the development of which it forms part and their visitors and for no other purpose and permanently retained as such thereafter.

Reason: In the interest of highway safety and to ensure the development complies with Policy TR2 of the Neath Port Talbot Local Development Plan.

- 15 The agreed biodiversity enhancement measures shall be implemented prior to occupation of any part of the approved development and retained as such there after.

Reason

To ensure the development is carried out in accordance with Planning Policy Wales 11, section 6 of the Environment (Wales) Act 2016 and Policy SP15 of the adopted Neath Port Talbot Local Development Plan.

- 16 Prior to the commencement of development a scheme for the drainage of the site, shall be submitted to and approved in writing by the Local Planning Authority. The scheme shall ensure that the drainage of any adjoining land is not interrupted or otherwise adversely affected by the development. The scheme shall be implemented as approved prior to the occupation of the development, and retained as such thereafter.

Reason:

In the interest of satisfactory drainage of the site, and ensure the development complies with Policy SP16 and BE1 of the Neath Port Talbot Local Development Plan.

The above conditon was agreed under planning application P2023/0657 approved on 17/10/2023

Regulatory Conditions

- 17 No infiltration of surface water drainage into the ground site is permitted other than with the express written consent of the local planning authority, which may be given for those parts of the site where it has been demonstrated that there is no resultant unacceptable risk to controlled waters. The development shall be carried out in accordance with the approval details.

Reason:

To prevent both new and existing development from contributing to or being put at unacceptable risk from or being adversely affected by unacceptable levels of water pollution. and ensure the development complies with Policy SP16 and BE1 of the Neath Port Talbot Local Development Plan (2011-2026).

- 18 The land shall be used for an Asphalt Plant and for no other purpose (including any other purpose in class B2 of the schedule to the Town and Country Planning (Use Classes) Order 1987 (or in any provision equivalent to that class in any statutory instrument revoking and re-enacting that order with or without modification).

Reason:

In order that other changes of use can be assessed in the interests of amenity and to accord with Policies SC1 and TR2 of the Neath Port Talbot Local Development Plan.

- 19 No surface water and/or land drainage shall be allowed to connect directly or indirectly with the public sewerage network

Reason:

To prevent hydraulic overloading of the public sewerage system, to protect the health and safety of existing residents and ensure no pollution of or detriment to the environment, and to and ensure the development complies with Policy SP16 and BE1 of the Neath Port Talbot Local Development Plan.

Informatives:

- 1 SAB approval will be required prior to any work commencing. To commence work is a breach of SAB approval required under Paragraph 7 (1) Schedule 3 of the Flood and Water Management Act 2010 whereby legal action will be taken by the Authority under The Sustainable Drainage (Enforcement) (Wales) Order 2018. Guidance and applications can

be found on www.npt.gov.uk/sab These systems must be approved by the Council's SAB & Highway Development Control Section before construction work begins. In this respect it is essential that a developer of any such project gain SAB approval of its surface water drainage alongside any relevant planning permission. You will not be allowed to start construction until both permissions have been approved. If you have not done so already, and your development would not fall into any of the relevant exceptions, you are therefore strongly encouraged to request further advice from the SAB. Involving the SAB Officers in pre-application discussions will allow for SuDS drainage matters (to ensure suitability of proposed SuDS design in line with national standards and adequate site layout) to be considered alongside the assessment of planning merits. There is an additional charge of £250 for this service. This can be as part of any agreed further pre-application submissions with the Planning Authority (recommended) or independently/ direct with the SAB. You are advised, however, that failing to engage in joint pre-application discussions has the potential to lead to delays and, most notably, the potential need to obtain further planning permission should any agreed SuDS design not be compliant with any relevant planning permission. Further details are available at www.npt.gov.uk/sab

2 If the development will give rise to a new discharge (or alter an existing discharge) of trade effluent, directly or indirectly to the public sewerage system, then a Discharge Consent under Section 118 of the Water Industry Act 1991 is required from Dwr Cymru / Welsh Water. Please note that the issuing of a Discharge Consent is independent of the planning process and a consent may be refused although planning permission is granted. The applicant may need to apply to Dwr Cymru / Welsh Water for any connection to the public sewer under S106 of the Water industry Act 1991. If the connection to the public sewer network is either via a lateral drain (i.e. a drain which extends beyond the connecting property boundary) or via a new sewer (i.e. serves more than one property), it is now a mandatory requirement to first enter into a Section 104 Adoption Agreement (Water Industry Act 1991). The design of the sewers and lateral drains must also conform to the Welsh Ministers Standards for Gravity Foul Sewers and Lateral Drains, and conform with the publication "Sewers for Adoption"- 7th Edition. Further information can be obtained via the Developer Services pages of www.dwrcymru.com. The applicant is also advised that some public sewers and lateral drains may not be recorded on our maps of public sewers because they were originally privately owned and were transferred into public ownership by nature of the Water Industry (Schemes for Adoption of Private Sewers) Regulations 2011. The presence of such assets may affect the proposal. In order to assist us in dealing with the proposal the applicant may contact Dwr Cymru Welsh Water to establish the location and status of the apparatus. Under the Water Industry Act 1991 Dwr Cymru Welsh Water has rights of access to its apparatus at all times.

3 The archaeological work must be undertaken to the appropriate Standard and Guidance set by Chartered Institute for Archaeologists (CIfA), (www.archaeologists.net/codes/ifa) and it is recommended that it is carried out either by a CIfA Registered Organisation (www.archaeologists.net/ro) or an accredited Member.

4 There must be no interference, alteration or diversion of any ditch, watercourse, stream or culvert crossing or bordering the site, without prior consultation and agreement with the Local Authority.

5 Environmental Permits/Exemptions – Waste The activity proposed in this planning application may require an environmental permit or exemption under The Environmental Permitting (England and Wales) Regulations 2016. An environmental permit or exemption

must be in place before any waste activity takes place on site. Advice regarding permits and exemptions can be found at the following link:<http://naturalresources.wales/permits-and-permissions/check-for-a-permit-licence-or-exemption/?lang=en> Please contact Natural Resources Wales for advice regarding an Environment Permit application on 0300 065 3000. Undertaking this proposed activity without the benefit of an Environmental Permit or exemption is an offence against Environmental Legislation and may result in enforcement action being taken against the operator. Obtaining planning permission does not necessarily ensure you will be issued an environmental permit.

Reason for decision

The decision to recommend planning permission has been taken in accordance with Section 38 of The Planning and Compulsory Purchase Act 2004, which requires that, in determining a planning application the determination must be in accordance with the Development Plan unless material considerations indicate otherwise. The Development Plan comprises the Neath Port Talbot Local Development Plan (2011-2026) adopted January 2016.

It is considered that the proposed Asphalt Plant (Class B2) makes effective use of a sustainable and strategically located brownfield site, providing economic benefits to the area through the provision of new employment opportunities, and that subject to the imposition of conditions, the proposed development would have no unacceptable impacts upon the character and appearance of the surrounding area, on residential amenity, highway and pedestrian safety, biodiversity, flooding and pollution. Accordingly, the proposed development is considered to accord Policies SP1, SP2, SP3, SP4, SP11, SP15, SP16, SP17, SP19, SP20 SP21, SC1, I1, EC2, EC3, EC7, EN8, M2/1, W3, TR2, and BE1

It is further considered that the decision complies with the Council's well-being objectives and the sustainable development principle in accordance with the requirements of the Well-being of Future Generations (Wales) Act 2015.

Signed: 

Ceri Morris – Head of Planning & Public Protection

Date: 21 July 2022

IMPORTANT:

(1) Please note that for all decisions issued after 16th March 2016 for outline or full planning permission, a revised decision notice will be issued whenever a subsequent consent is given, for example providing details of any Reserved Matters approvals (outline applications only) and/or approval of conditions (including on Reserved Matters). This will ensure that the current status of the conditions applied to a consent is clear. Accordingly you are advised to visit www.npt.gov.uk/planning to view the application documentation to see if this is the current version, or whether it has been superseded by a more up-to-date revision of this Decision Notice. For Reserved Matters approvals the revised Decision Notice will only be shown under the Outline approval.

(2) Please note that this consent is specific to the plans and particulars approved as part of the application. Any departure from the approved plans will constitute unauthorised development and may be liable to enforcement action. You (or any subsequent developer) should advise the Council of any actual or proposed variations from the approved plans immediately so that you can be advised how to best resolve the matter.

(3) In addition, any conditions that the Council has imposed on this consent will be listed above and should be read carefully. It is your (or any subsequent developers) responsibility to ensure that the terms of all conditions are met in full at the appropriate time (as outlined in the specific condition). Please note that any works carried out without compliance with the conditions attached to this approval will be entirely at the risk of the persons involved and may result in formal action being taken by the Local Planning Authority.

(4) The developer should have regard to Sections 4, 7, 8 and 8A of the Chronically Sick and Disabled Persons Act 1970 and to the British Standards Institution's Code of Practice for "Design of buildings and their approaches to meet the needs of disabled people" (BS 8300:2009+A1:2010).

(5) From 1st October 2012 it has been an offence to install a public sewer or lateral drain without having an adoption agreement in place. From the 1st October 2012 the vast majority of all existing private sewers and lateral drains which link with the public sewer network were transferred to Welsh Water. For further details on how this will affect your development please contact: Welsh Water Developer Services, PO Box 3146, Cardiff, CF30 0EH. Telephone No. 0800 9172652 or email: developer.services@dwrcymru.com.

IMPORTANT INFORMATION: TOWN AND COUNTRY PLANNING ACT 1990

The applicant's attention is drawn to the notes below.

- (1) If the applicant is aggrieved by the decision of the Local Planning Authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Welsh Government under Section 78 of the Town and Country Planning Act 1990 (as amended).
- (2) You can also appeal to the Welsh Government against a decision to refuse permission or grant subject to conditions in respect of applications made for :- Listed Building or Conservation Area Consent; Consent under a Tree Preservation Order; Advertisement Consent.
- (3) You can also appeal If your application for a Certificate of Lawful Existing Use or Lawful Proposed Use is partly or wholly refused or is granted differently from what you asked for (under Section 195/196) of the Town and Country Planning Act 1990 (as amended).
- (4) If you are aggrieved of the LPAs decision, the following deadlines apply for appeals to be submitted to the Welsh Government (from the date of the Council's decision):-

(1) Planning Permission (with the exception of Minor Commercial and Householder applications – see below)	Within 6 Months
(2) Householder Appeal see endnote i	Within 12 weeks
(3) Minor Commercial Appeal see endnote i	Within 12 weeks
(4) Listed Building or Conservation Area Consent appeals	Within 6 months
(5) Tree Preservation Order (TPO) Consent	Within 28 days
(6) Advertisement Consent	Within 8 weeks
(7) Certificate of Lawfulness of Existing (Section 191) or Proposed (Section 192) Use or Development	Within 6 months
(8) Hazardous Substances Consent	Within 6 months
- (5) Appeals must be made on a form which is obtainable from the Planning Inspectorate, Crown Buildings, Cathays Park, Cardiff, CF10 3NQ – Tel 0303 444 5940, or online at www.planningportal.gov.uk/pcs .
- (6) The Welsh Government has power to allow a longer period for the giving of notice of appeal but they will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- (7) The Welsh Government is not required to entertain an appeal if it appears to them that permission for the proposed development could not have been granted having regard to the statutory requirements to the provisions of the development order, and to any directions given under the Order. They do not in practice refuse to entertain appeals solely because the decision of the Local Planning Authority was based on a direction given by them.
- (8) If permission to develop land is refused or granted subject to conditions, whether by the Local Planning Authority or by the Welsh Government, and the owner of the land claims that the land has become incapable of reasonable beneficial use in its existing state and cannot be rendered capable of reasonable beneficial use by the carrying out of any development which has been or would be permitted, he may serve on the County Borough Council, in which the land is situated, as the case may be, a **purchase notice** requiring that Council purchase his interest in the land in

accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

Making an Appeal

- (9) Please note that for all applications received by the LPA after 5th May 2017, it is now a requirement that any appeal made to the Planning Inspectorate (other than Householder and Minor Commercial Appeals, and appeals against refusal to grant advertisement consent) must be accompanied by all the information and evidence you intend to rely upon (a **“full statement of case”**). You must also send a copy of the notice of appeal and full statement of case to the LPA.
- (10) In addition, for ‘planning appeals’ an amendment to an application following notice of appeal may only be made to correct an error.
- (11) Additional details and information on making an appeal to the Welsh Government is available from the Planning Inspectorate at the above address and website. The relevant documents are entitled “making your planning appeal” and “planning appeals Public Local Inquiries”.
- (12) Further correspondence regarding this application should bear the reference number quoted on the top of the decision notice.

THIS NOTICE RELATES ONLY TO A PLANNING DECISION AND DOES NOT RELATE TO OTHER LEGISLATION INCLUDING ANY LEGISLATION UNDER:

- BUILDING REGULATIONS – Please contact buildingcontrol@npt.gov.uk or 01639 686820 to discuss all aspects of the service that is offered by Building Control
- HIGHWAY LEGISLATION

IF PLANNING CONSENT HAS BEEN GRANTED IT IS ADVISABLE TO ESTABLISH WHETHER ANY OTHER FORM OF CONSENT IS REQUIRED AND TO OBTAIN SUCH CONSENT BEFORE COMMENCING DEVELOPMENT

ⁱ Please see the [Town and Country Planning \(Referred Applications and Appeals Procedure\) \(Wales\) Regulations 2017](#) for appeal procedures and for full definitions of:

- *“householder application”* (essentially an application for the enlargement, improvement or other alteration of a dwellinghouse, or development within the curtilage of such a dwellinghouse, or change of use to enlarge the curtilage of a dwelling house)
- *“householder appeal”* means an appeal in relation to a householder application, but excludes an appeal against conditions on the grant of planning permission; or an appeal which is accompanied by an enforcement or listed building consent appeal.
- *“minor commercial application”* (essentially relates to existing buildings of no more than 250 square metres gross external floor space at ground floor level, currently in use for any of the purposes set out in Schedule 1A to The Town and Country Planning (Development Management Procedure) (Wales) (Amendment) Order 2015 which is an application for change of use from Class A1 to A2 or A3; or Class A2 to A3); or the carrying out of building or other operations to a shop front.
- *“minor commercial appeal”* means an appeal in relation to a minor commercial application but excludes an appeal against conditions on the grant of planning permission; or an appeal which is accompanied by an enforcement or listed building consent appeal.
