Play

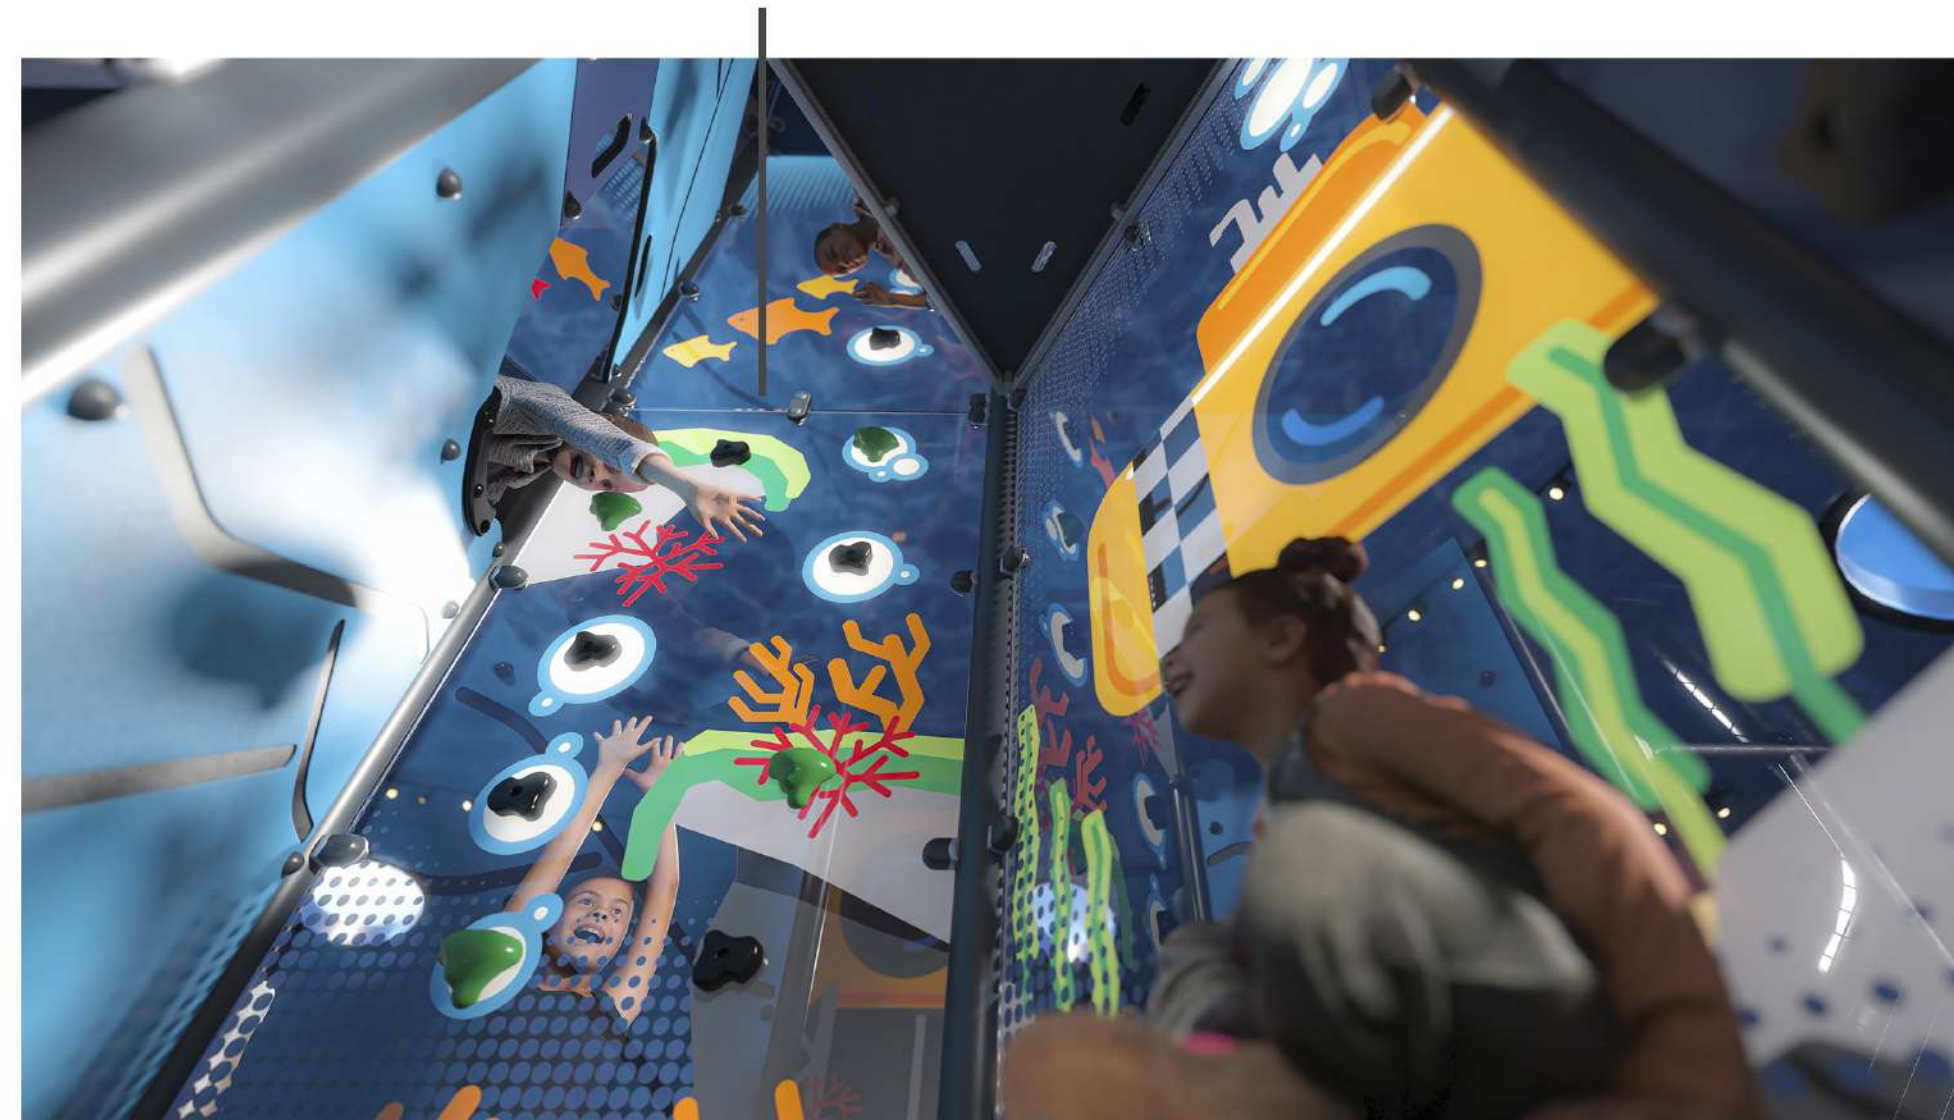

PLUS MUCH MORE!

WOW! The Ocean Giant XL's sky-high climb-slide-meet features attract all children hugely.

The Giant offers a unique variety of speedy sliding, gentle swaying and not least challenging climbing. The transparent towers are meandering climbs, promoting thrill and social interaction. This ensures vigorous play, over and over. The slides are main attractions. The open and closed slide and the challenging fireman's pole offer each their fast ride. Severe fun, stimulating social-emotional skills such as self-regulation and empathy. The varied climbing activities add choice for all, the transparent climbs add thrill. Climbing here trains cross-coordination, sense of space and muscles. Swaying play shells, talking tubes and a tic-tac-toe play panel create an inviting ground level space. Low climbing and ropes with pods add opportunities for all to socialize and participate in play.

Climb the transparent panels with theming!

Universal Play in Aberavon

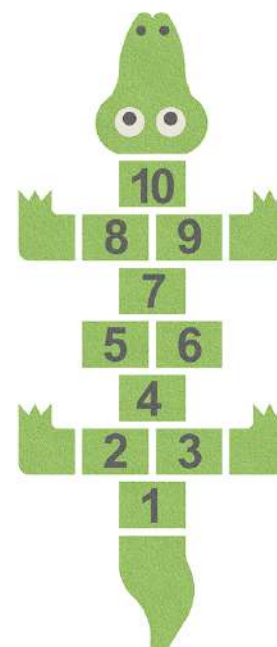

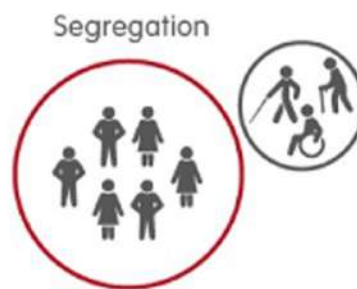

Please [click here](#) to see our Tipi

What is 'Universal Play'? We believe a playground should be designed for everyone to feel included. **This playground is designed to be both accessible and inclusive.**

We follow 6 key universal playground design points and included these products shown as well as many more, in your playground design.

Our play insitute & have written a white paper on inclusive play. Please [click here](#) to view & download this to learn about why we design all of our playground products like we do. Let's Play, Together!

What is a universal playground?

- 1 Accessible, inclusive routing and infrastructure
- 2 Access to relevant ground-level activities
- 3 Access to relevant elevated-level activities
- 4 Support thrilling and challenging play
- 5 Support social interaction
- 6 Variation in play activities

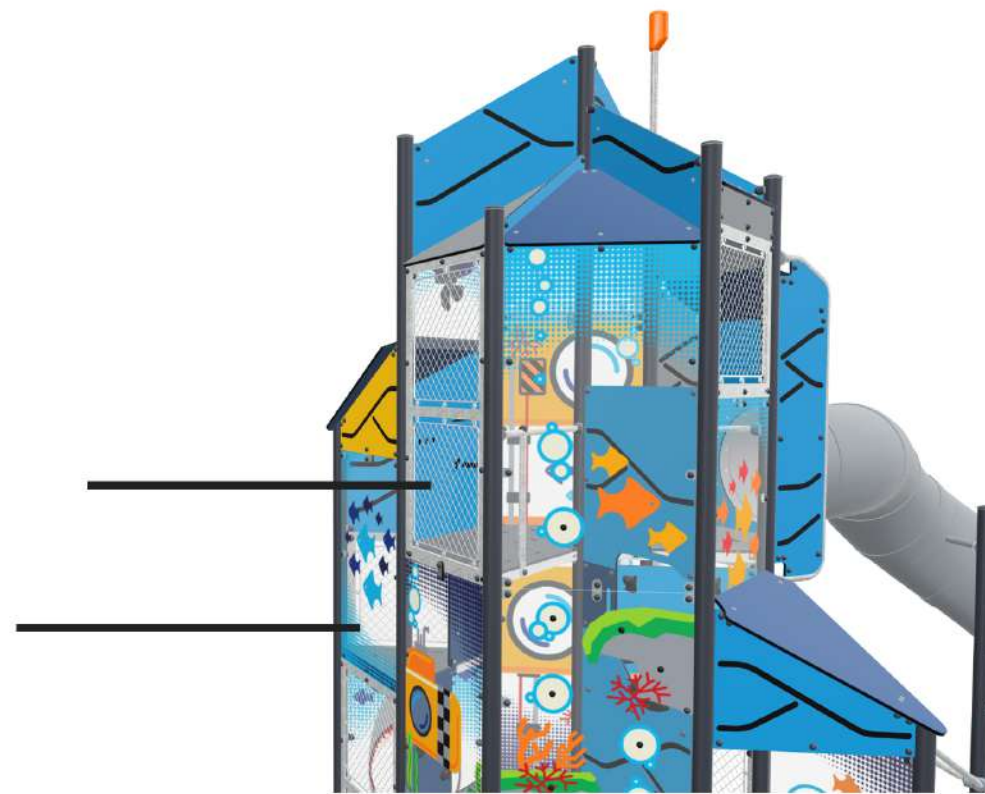

Make Space for Girls

We have selected products to ensure everyone is included and feels comfortable

There are lots of products included within this design that are inclusive and girls will love, but we wanted to highlight a couple for you that have been specifically included and why we have chosen them.

1

Ocean Climbing Tower

This product is great for girls! Research shows girls love to climb up high, away from the crowd, sit and relax on their own or with a group of friends for social interaction! There are plenty of levels for girls to climb to on this amazing tower!

2

Nest Seat Swing

This product is great for group play, sitting whilst being active and socialising. It is a great non-intimidating piece of equipment as you sit or lay as an individual and can choose how much you interact with others. Allowing progression and development for those less confident.

3

Ground Level Hammocks

These adjacent hammocks have been included onto our giants tower unit on purpose! We wanted to make extra space for girls to feel safe and comfortable to take 5 to relax together

Sustainability

Our products meet our sustainable mission
For a company like KOMPAN,
more than 80% of carbon
emissions come from the raw
materials we use. So, we have
dedicated our efforts to lowering
our carbon emissions by using
more sustainable raw materials.
The result we aim for -
playgrounds that do not harm

Greenline

We have included various pieces of equipment that feature our greenline material. This is made from recycled ocean waste

Ecocore

Other panels on this playground on multiplay equipment are Ecocore, 100% recycled plastic panels.

Lifetime Warranty Steel = less waste!

We want to make sure everything lasts for as long as possible, so our materials are manufactured to the highest quality so they do!

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
