

	Proposed tree planting as shown on approved landscape drawing ref: ARW1089.
	Proposed hedge planting as shown on approved landscape drawing ref: ARW1089.
	Proposed shrub planting to rain gardens. Refer to schedule for details.
	Proposed amenity grassed areas as shown on approved drawing ref: ARW1089.
	Proposed SUDS features as shown on Engineering drawing.
	Proposed wildflower seed mix to be Emorsgate Mix 'EM8 Meadow Mixture For Wetlands' sown at the recommended rate of 4g/m2. To be left uncut and strimmed only twice per year.

If birds are found to be breeding in the vegetation which needs to be removed then vegetation removal in the area surrounding the nest must be delayed until the eggs have hatched and the young birds have left the nest.

REV. A	DESCRIPTION. Updated following Engineering comments. LH/DP	DATE. 20.12.23	REV.	DESCRIPTION.	DATE.	REV.	DESCRIPTION.	DATE.		IMPORTANT CDM / H&S NOTE The designers would draw the readers attention to key residual construction health and safety hazards that have not been eliminated from the designs shown on the drawings by the design process. These hazards are identified below. Working on or adjacent to the public highway. Working adjacent to water bodies during storm conditions. Any construction personnel including operatives intending to construct the designs shown on this drawing should ensure that they have been thoroughly briefed by the principle contractor on all health and safety matters and have sight of - The full designers and contractors hazard risk assessments and risk registers. - The developed construction phase health and safety plan. - The contractors construction method statements.
