

**GREEN INFRASTRUCTURE STATEMENT &  
BIODIVERSITY ENHANCEMENT SCHEME FORM**

|                          |                                                      |
|--------------------------|------------------------------------------------------|
| Form completed by:       | <b>NICK BROWN</b>                                    |
| Date:                    | <b>5.6.24</b>                                        |
| Address of site:         | <b>118 HEOL CAE GURWEN, GCG, AMMANFORD. SA18 1PD</b> |
| Grid reference:          |                                                      |
| Description of Proposal: | <b>ALTERATION TO EXISTING VEHICULAR ACCESS</b>       |

**1. Details of all existing green infrastructure on site:**

|               |                                                   |
|---------------|---------------------------------------------------|
| Boundary 1:   | <i>West boundary with highway – tall conifers</i> |
| Boundary 2:   | <i>N/A</i>                                        |
| Boundary 3:   | <i>N/A</i>                                        |
| Boundary 4:   | <i>N/A</i>                                        |
| Front Garden: |                                                   |
| Rear Garden:  |                                                   |
| Other:        |                                                   |

**2. What green infrastructure features (trees, hedges, hedgebanks) have already been removed from site and/or require removal to facilitate the development?**

|               |                          |
|---------------|--------------------------|
| Boundary 1:   | <i>4no tall conifers</i> |
| Boundary 2:   | <i>None</i>              |
| Boundary 3:   | <i>None</i>              |
| Boundary 4:   | <i>None</i>              |
| Front Garden: | <i>None</i>              |
| Rear Garden:  | <i>None</i>              |
| Other:        |                          |

**3. How are the retained features being protected during development (BS5837:2012)?**

|               |                                                                              |
|---------------|------------------------------------------------------------------------------|
| Boundary 1:   | <i>RPA to have Heras fencing erected for duration of work (see BP690.2b)</i> |
| Boundary 2:   | <i>N/A</i>                                                                   |
| Boundary 3:   | <i>N/A</i>                                                                   |
| Boundary 4:   | <i>N/A</i>                                                                   |
| Front Garden: | <i>N/A</i>                                                                   |
| Rear Garden:  | <i>N/A</i>                                                                   |
| Other:        |                                                                              |

**4. What Green Infrastructure is being planted as mitigation for losses?**

|             |                                                                                         |
|-------------|-----------------------------------------------------------------------------------------|
| Boundary 1: | <i>Area of wild flowers to be planted adjacent to West boundary (see plan BP690.2b)</i> |
| Boundary 2: | <i>N/A</i>                                                                              |
| Boundary 3: | <i>N/A</i>                                                                              |

|               |     |
|---------------|-----|
| Boundary 4:   | N/A |
| Front Garden: | N/A |
| Rear Garden:  | N/A |
| Other:        |     |

##### 5. What Landscaping is being planted to enhance Green Infrastructure?

|               |                                                                                         |
|---------------|-----------------------------------------------------------------------------------------|
| Boundary 1:   | <i>Area of wild flowers to be planted adjacent to West boundary (see plan BP690.2b)</i> |
| Boundary 2:   | N/A                                                                                     |
| Boundary 3:   | N/A                                                                                     |
| Boundary 4:   | N/A                                                                                     |
| Front Garden: | N/A                                                                                     |
| Rear Garden:  | N/A                                                                                     |
| Other:        |                                                                                         |

##### 6. How will the new planting be managed or maintained?

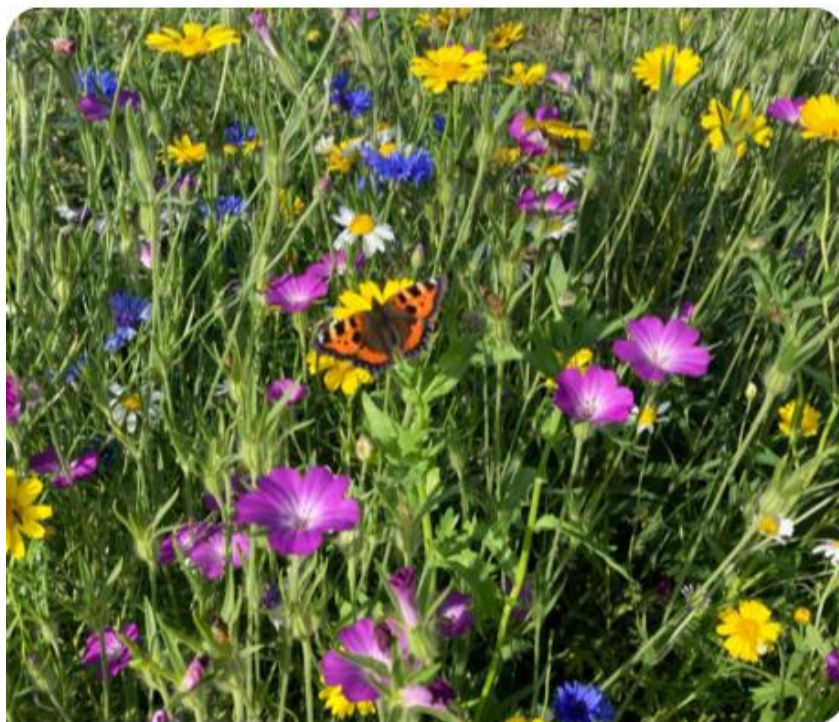

###### Wild Flower Planting Area

An area adjacent to the West boundary is to be designated as a wild flower planting area.

There is no planting here site currently and it is proposed to sow 'Bees and Butterfly Wildflower Seed BSBP 100%' mix supplied by Boston Seeds

[https://www.bostonseeds.com/products/wildflowers-seed/wildflower-seed-mixtures-100/?gad\\_source=1&gclid=Cj0KCQjw5cOwBhCiARIsAJ5njubXump68Yr9bBBzpxuzFMLjd8-T8uGUdN7cLE1zSMLvTCS70OlayOMaALEZEALw\\_wcB](https://www.bostonseeds.com/products/wildflowers-seed/wildflower-seed-mixtures-100/?gad_source=1&gclid=Cj0KCQjw5cOwBhCiARIsAJ5njubXump68Yr9bBBzpxuzFMLjd8-T8uGUdN7cLE1zSMLvTCS70OlayOMaALEZEALw_wcB)

This planting is designed to provide maximum pollen and nectar and creates a beautiful long lasting meadow and Wildlife habitat.

## 7. Biodiversity enhancements

The enhancements do not need to be directly attached to the proposed new construction; they can be attached to the host dwelling or placed within the garden, but they do need to be on land within the red or blue line. The principle is that the enhancements should lead to a 'net benefit' for biodiversity.

The following biodiversity enhancements have also been added:

| Type                 | Location                            | Info          |
|----------------------|-------------------------------------|---------------|
|                      |                                     |               |
| Wild flower planting | A section adjacent to West boundary | West boundary |
|                      |                                     |               |
|                      |                                     |               |

Where there are more detailed biodiversity enhancements proposed, there is a separate form available to use. (Please see associated guidance document).

## 8. Sketch plan (Insert plan showing the features of the development site):

**9. Site photos (as required)**

**Proposed Features**

As Above

|

## **10. Conclusion**

Based on the information provided above, this development will result in a **Green Infrastructure and Biodiversity Net Benefits** upon completion.
