Biodiversity and Geological Conservation

To assist in answering the following questions refer to the help text. The help text provides further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals.

Having referred to the help text, is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

a) Protected and priority species

- ☐ Yes, on the development site
☒ Yes, on land adjacent to or near the proposed development
☐ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
☒ Yes, on land adjacent to or near the proposed development
☐ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Industrial or Commercial Processes and Machinery

Does this proposal involve the carrying out of industrial or commercial activities and processes?

☒ Yes

☐ No

Please describe the activities and processes which would be carried out on the site and the end products including plant, ventilation or air conditioning. Please include the type of machinery which may be installed on site:

It is proposed to replace the Paper Mills existing gas fired boiler with a new moving grate biomass boiler which would produce high pressure steam to feed in to the paper products manufacturing process. This would be fuelled by the combustion of a maximum of 44,100 tonnes per annum of clean, virgin wood chip. The existing gas fired boiler would be retained and used as back-up boiler. The gasses generated through the combustion process would be fed into an electrostatic precipitator which would remove dust and smoke etc. The cleaned gases would then be emitted to atmosphere via the stack.

Is the proposal for a waste management development?

☐ Yes

☒ No

Renewable and Low Carbon Energy

Does your proposal involve the installation of a standalone renewable or low-carbon energy development?

☒ Yes

☐ No

If you have answered 'Yes' to the question above please state the proposed energy output capacity in Megawatts (MW):

Renewable energy type:

Other low carbon or renewable energy

Other low carbon or renewable energy (please specify):
