8. Trees - Reasons For Works

This section only needs to be completed if you are seeking consent for proposed works to trees under a Tree Preservation Order (TPO)

Please state the reasons for carrying out the proposed works on the tree(s):

Sycamore trees bordering the rear of Owen Lloyd house are casting permanent shade over the house. Given the species of the trees and the rapid growth the house owner is seeking permission to remove the row of trees. The owner is worried the trees will cause damage to the banking and structural damage to the property if any of the trees were to fall. Given the trees are closely planted together and competing for light a crown reduction wouldn't in my eye be ~~so~~ suitable given the re growth it would re shoot, nor would it look aesthetically pleasing on the eye.

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the documents specified.

Health or safety of the tree(s) - e.g. it is diseased, fears that it might break or fall:

☒ Yes

☐ No

If Yes, information required - report by a tree professional (e.g. arboriculturist, horticultural adviser).

Alleged subsidence damage:

☐ Yes

☐ No

If Yes, Information required: Full report by an engineer or surveyor, together with one from a tree professional - to include date and description of property damage; sub-soil type and shrinkage potential; location of any roots found and their identification; history of ground and building movement through a distortion survey and/or level or crack monitoring over suitable period; other vegetation in the vicinity and its management since discovery of the damage.

9. Trees - Additional Information

Are you providing additional information in support of your application?

☒ Yes

☐ No

If Yes, please provide the reference numbers of plans, documents, professional reports etc in support of your application:

- Trees growing out of the banking could become unstable.
