Action Conditions

- 2 In the event that contamination is found at any time when carrying out the approved development that was not previously identified, work on site shall cease immediately and shall be reported in writing to the Local Planning Authority. A Desk Study, Site Investigation, Risk Assessment and where necessary a Remediation Strategy must be undertaken in accordance with the following document:- Land Contamination: A Guide for Developers (WLGA, WAG & EAW, July 2006). This document shall be submitted to and agreed in writing with the Local Planning Authority. Prior to occupation of the development, a verification report which demonstrates the effectiveness of the agreed remediation, shall be submitted to and agreed in writing with the Local Planning Authority.

Reason:

To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other off site receptors, and to ensure compliance with Policies SP16 and EN8 of the Neath Port Talbot Local Development Plan.

Regulatory Conditions

- 3 All vehicular and pedestrian gates shall be of a type which open inward only and can be seen through, and shall be retained as such thereafter.

Reason:

In the interest of highway and pedestrian safety and to ensure compliance with Policy TR2 of the Neath Port Talbot Local Development Plan.

- 4 The badger access points, as shown on plan TATT3054 1005 00, shall be installed on site at the time of the fencing installation and retained as such thereafter.

Reason:

In the interest of biodiversity, and to ensure passage through the site and to accord with Policy SP15 of the adopted Neath Port Talbot Local Development Plan.

Informatives:

- 1 The Public Right of Way shall be protected at all times and any damage caused to the Right of Way shall be rectified to the satisfaction of this authority. No alteration or change of condition to the PROW is to be undertaken without further consultation with the Countryside Team.

2 Any works on this land will need to be undertaken following engagement with Asset Protection to determine the interface with Network Rail assets, buried or otherwise and by entering into a Basic Asset Protection Agreement, if required, with a minimum of 3 months notice before works start. Initially the outside party should contact assetprotectionwales@networkrail.co.uk. LEVEL CROSSINGS As there is a level crossing in the vicinity then no part of the development shall cause any existing level crossing road signs or traffic signals or the crossing itself to be obscured. Clear sighting of the crossing must be maintained for the construction/operational period and as a permanent arrangement. The same conditions apply to the rail approaches to the level crossing, this stipulation also includes the parking of vehicles, caravans, equipment and materials etc, which again must not cause rail and road approach sight lines of the crossing to be obstructed. At no point during construction on site or after completion of works should there be any deterioration of the ability of pedestrians and vehicles to see the level crossing and its signage. There must be no reduction in the distance that pedestrians and vehicles have sight of the warning signs and the crossing itself. Network Rail reserves the right to provide and maintain existing railway signals/signs (whistle boards etc) and level crossing equipment along any part of its railway.

Reason for granting planning permission:

The decision to recommend planning permission has been taken in accordance with Section 38 of The Planning and Compulsory Purchase Act 2004, which requires that, in determining a planning application the determination must be in accordance with the Development Plan unless material considerations indicate otherwise. The Development Plan comprises Future Wales - the National Plan 2040 and the Neath Port Talbot Local Development Plan (2011-2026) adopted January 2016.

It is considered that the proposal represents an appropriate form of development that would have no unacceptable impact on visual and residential amenity, highway and pedestrian safety, biodiversity and flooding. Accordingly, the proposed development is in accordance with Policies SP3, SP4, EC2, EN6, EN7, BE1 and TR2 of the Neath Port Talbot Local Development Plan.

It is further considered that the decision complies with Future Wales - the National Plan 2040, and the Council's well-being objectives and the sustainable development principle in accordance with the requirements of the Well-being of Future Generations (Wales) Act 2015.

Signed: 

Ceri Morris – Head of Planning & Public Protection

Date: 26 June 2024

IMPORTANT:

(1) Please note that for all decisions issued after 16th March 2016 for outline or full planning permission, a revised decision notice will be issued whenever a subsequent consent is given, for example providing details of any Reserved Matters approvals (outline applications only) and/or approval of conditions (including on Reserved Matters). This will ensure that the current status of the conditions applied to a consent is clear. Accordingly you are advised to visit www.npt.gov.uk/planning to view the application documentation to see if this is the current version, or whether it has been superseded by a more up-to-date revision of this Decision Notice. For Reserved Matters approvals the revised Decision Notice will only be shown under the Outline approval.

(2) Please note that this consent is specific to the plans and particulars approved as part of the application. Any departure from the approved plans will constitute unauthorised development and may be liable to enforcement action. You (or any subsequent developer) should advise the Council of any actual or proposed variations from the approved plans immediately so that you can be advised how to best resolve the matter.

(3) In addition, any conditions that the Council has imposed on this consent will be listed above and should be read carefully. It is your (or any subsequent developers) responsibility to ensure that the terms of all conditions are met in full at the appropriate time (as outlined in the specific condition). Please note that any works carried out without compliance with the conditions attached to this approval will be entirely at the risk of the persons involved and may result in formal action being taken by the Local Planning Authority.

(4) The developer should have regard to Sections 4, 7, 8 and 8A of the Chronically Sick and Disabled Persons Act 1970 and to the British Standards Institution's Code of Practice for "Design of buildings and their approaches to meet the needs of disabled people" (BS 8300:2009+A1:2010).

(5) From 1st October 2012 it has been an offence to install a public sewer or lateral drain without having an adoption agreement in place. From the 1st October 2012 the vast majority of all existing private sewers and lateral drains which link with the public sewer network were transferred to Welsh Water. For further details on how this will affect your development please contact: Welsh Water Developer Services, PO Box 3146, Cardiff, CF30 0EH. Telephone No. 0800 9172652 or email: developer.services@dwrcymru.com.

(6) Welsh Water Dwr Cymru advise that the planning permission hereby granted does not extend any rights to carry out any works to the public sewerage or water supply systems without first having obtained the necessary permissions required by the Water Industry Act 1991.

Please note, in accordance with Construction and Design Management (CDM) Regulations, it is the applicant's responsibility to ensure that any proposed works within their curtilage do not conflict with any underground services and is recommended they review their land registry title deeds for any legal covenants. For Sewers or Watermains that may be present and affected by your proposals, you are advised to contact Dwr Cymru Welsh Water who will be able to explain whether your proposed works will be acceptable as well as any consent required. Prior to commencing works, it is also recommend the applicant review the information and guidance on Building Over Sewers

available on Welsh Water's website at

<https://developers.dwrcymru.com/en/applications/planning/build-over-or-near-to-sewers>

The applicant is also advised that some public sewers and lateral drains may not be recorded on Welsh Water maps of public sewers because they were originally privately owned and were transferred into public ownership by nature of the Water Industry (Schemes for Adoption of Private Sewers) Regulations 2011. The presence of such assets may affect the proposal. In order to assist us in dealing with the proposal the applicant may contact Dwr Cymru Welsh Water to establish the location and status of the apparatus. Under the Water Industry Act 1991 Dwr Cymru Welsh Water has rights of access to its apparatus at all times.
