

P1894

Material

High tensile steel body, zinc plated with rubber insert.

Technical Notes

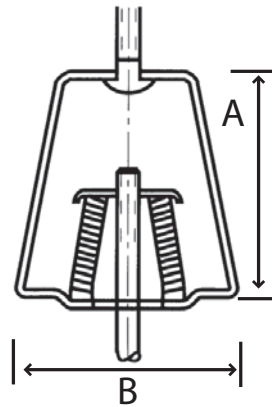

These units are designed for installations where objects are suspended from ceilings (such as fans, distribution pipes and ducts). The spring in the body provides good anti-vibration properties. They are a lower load carrying version of part no. P1893.

Tips

Select to damper corresponding to the load to be carried per unit.

Suspension Mounts

anti-vibration, rubber body

Order No.	A	B	Load rating (Kg)
