Foel Trawsnant Windfarm Connection
Our Ref: UK0037904.7662
22 November 2024

Dear Sir/Madam,

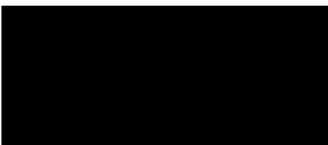

**Foel Trawsnant Windfarm Grid Connection
Submission of a Scoping Report for a Development of National Significance**

Following the submission of a DNS Notification in October 2024 (case ref: CAS-02505-N3T6M4), I attach, via email, a copy of the Applicant's (Pennant Walters) Scoping Report for the above Project. I also attach a plan showing the route of the connection.

The Project will comprise of both 66 kilovolt (kV) overhead lines (OHL) and underground cables (UGC) which will provide a connection between the Foel Trawsnant Wind Farm and the wider national grid. The Project is mainly located within Bridgend County Borough Council (BCBC) but the start and end of the connection fall within the Neath Port Talbot County Borough Council (NPTCBC) (see Figure 1-1 attached).

I trust that the information contained within the document provides sufficient detail for an opinion on the scope of the EIA to be confirmed. Should PEDW have any questions or wish to seek further clarity on the scope, in advance of formulating its response, please do not hesitate to contact me.

Yours faithfully

Edward Purnell
Associate
